Logo

Font Style: Playfair Display

Due to Maryon coming from Italy, we feel that this font is reminiscent of Italian fashion-culture, and as a result wanted to incorporate that into the typography of the logo.

Colour Scheme

Pink represents playfulness in colour psychology, which portrays her fun personality and youthfulness. It is a muted pink instead of a bright pink to convey maturity due to the struggles she has overcome.

SWOT Analysis

Strengths	Lively when performing Very attractive Active on social media (Instagram) Great look
Weaknesses	Doesn't seem to perform with a piano even though she can play it Hasn't done any collabs with other artists
Opportunities	Her genre is popular - going to see significant growth in listeners Gen z (her target market) uses TikTok a lot and that's one of the most popular platforms right now As she's young, she'll be able to navigate new forms of social media better than older artists
Threats	Lots of young artists are now seeking fame through active use of social media (TikTok, Spotify)

Website & E-Marketing

Draft Website

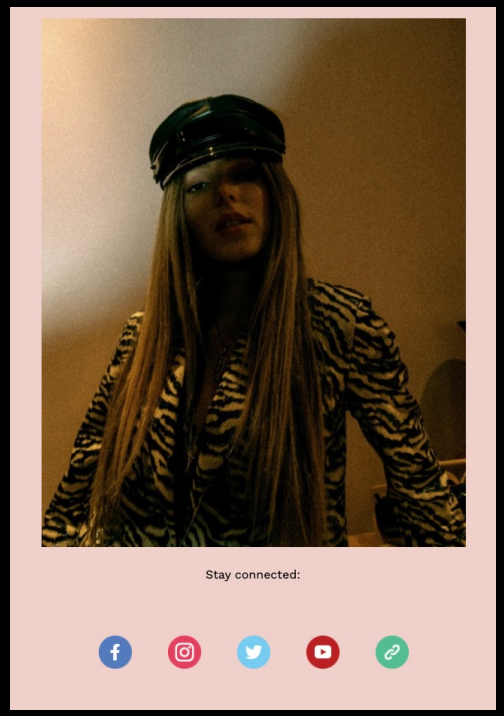

- To the left is a draft site for Maryon's Desktop website. It includes: Logo, imagery, single release info, a subscription form, contact box as well as relevant links to socials.
- Maryon is currently lacking a website and as mentioned earlier, severely affects her data-capture, and thus audience reach via e-marketing.

Maryon E-Marketing Campaign

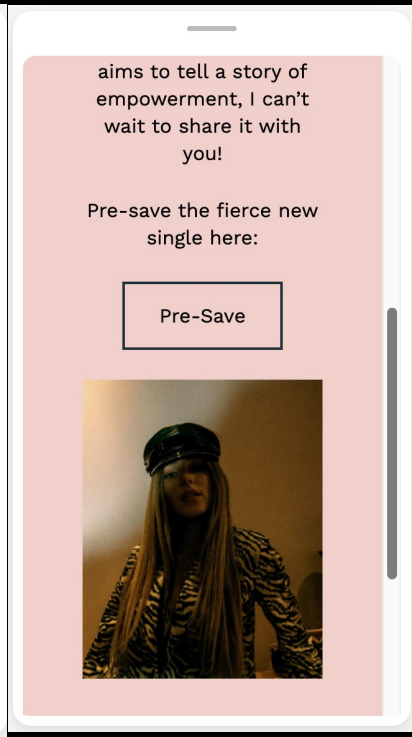

- Maryon currently does not have a functional website. She is missing out on vast data capture in terms of e-mail marketing
- We aim to create her a website with a subscription form to aid data capture in the run up to the single release.
- We will then send out targeted e-mails to her subscribers incrementally via MailChimp to continually generate hype.

Narrative & Music Video

Narrative

<u>Out of the Fire</u>
Overcoming inner-demons, and refreshing her outlook. Maryon through her diligence has discovered her inner strength and has now adopted a sense of freedom, we want to convey her confidence, individuality and empowerment derived from her inner battles and past experiences. Lyrically this song discusses the battle with an ex-partner and wanting to break free of the fiery pit of demeaning and diffidence.

The above narrative will lead into a theme for the music video we propose to execute for our campaign.

Music Video Storyboard

•***Intro*** - Maryon is trapped in a battle with her inner demons based on past experiences, Out of the Fire means to convey her escape from difficult situations with past relationships and loss of confidence as a result of that. We start with her trapped in a room in a busy city, feeling isolated and alone. As the intro builds before the chorus, her confidence is building and she's dressing up and ready to go. Could cut to a fiery image of a burning city representing her mind and feelings.

•***Middle***, as her confidence has built with the narrative of the lyrics and music, we approach the chorus. She is ready to escape and move on with her life, she feels awoken and manages to escape from the "fire".
The chorus hits and she's out meeting people, enjoying herself, cutting to various shots of her exuding confidence and knowing her self-worth. Back to the verse again we see her continuing the journey walking away from the fire. Also include shots of her on the hustle, working hard, bettering herself, singing (recording music?).

•***Finale***, Looking back at the flames she has escaped from, she's stood at a high place in town or at the top of a mountain. The flames begin to reduce to a smoulder, and she turns back to see a beautiful scenic image, and a white beam of light flashes to end the video.

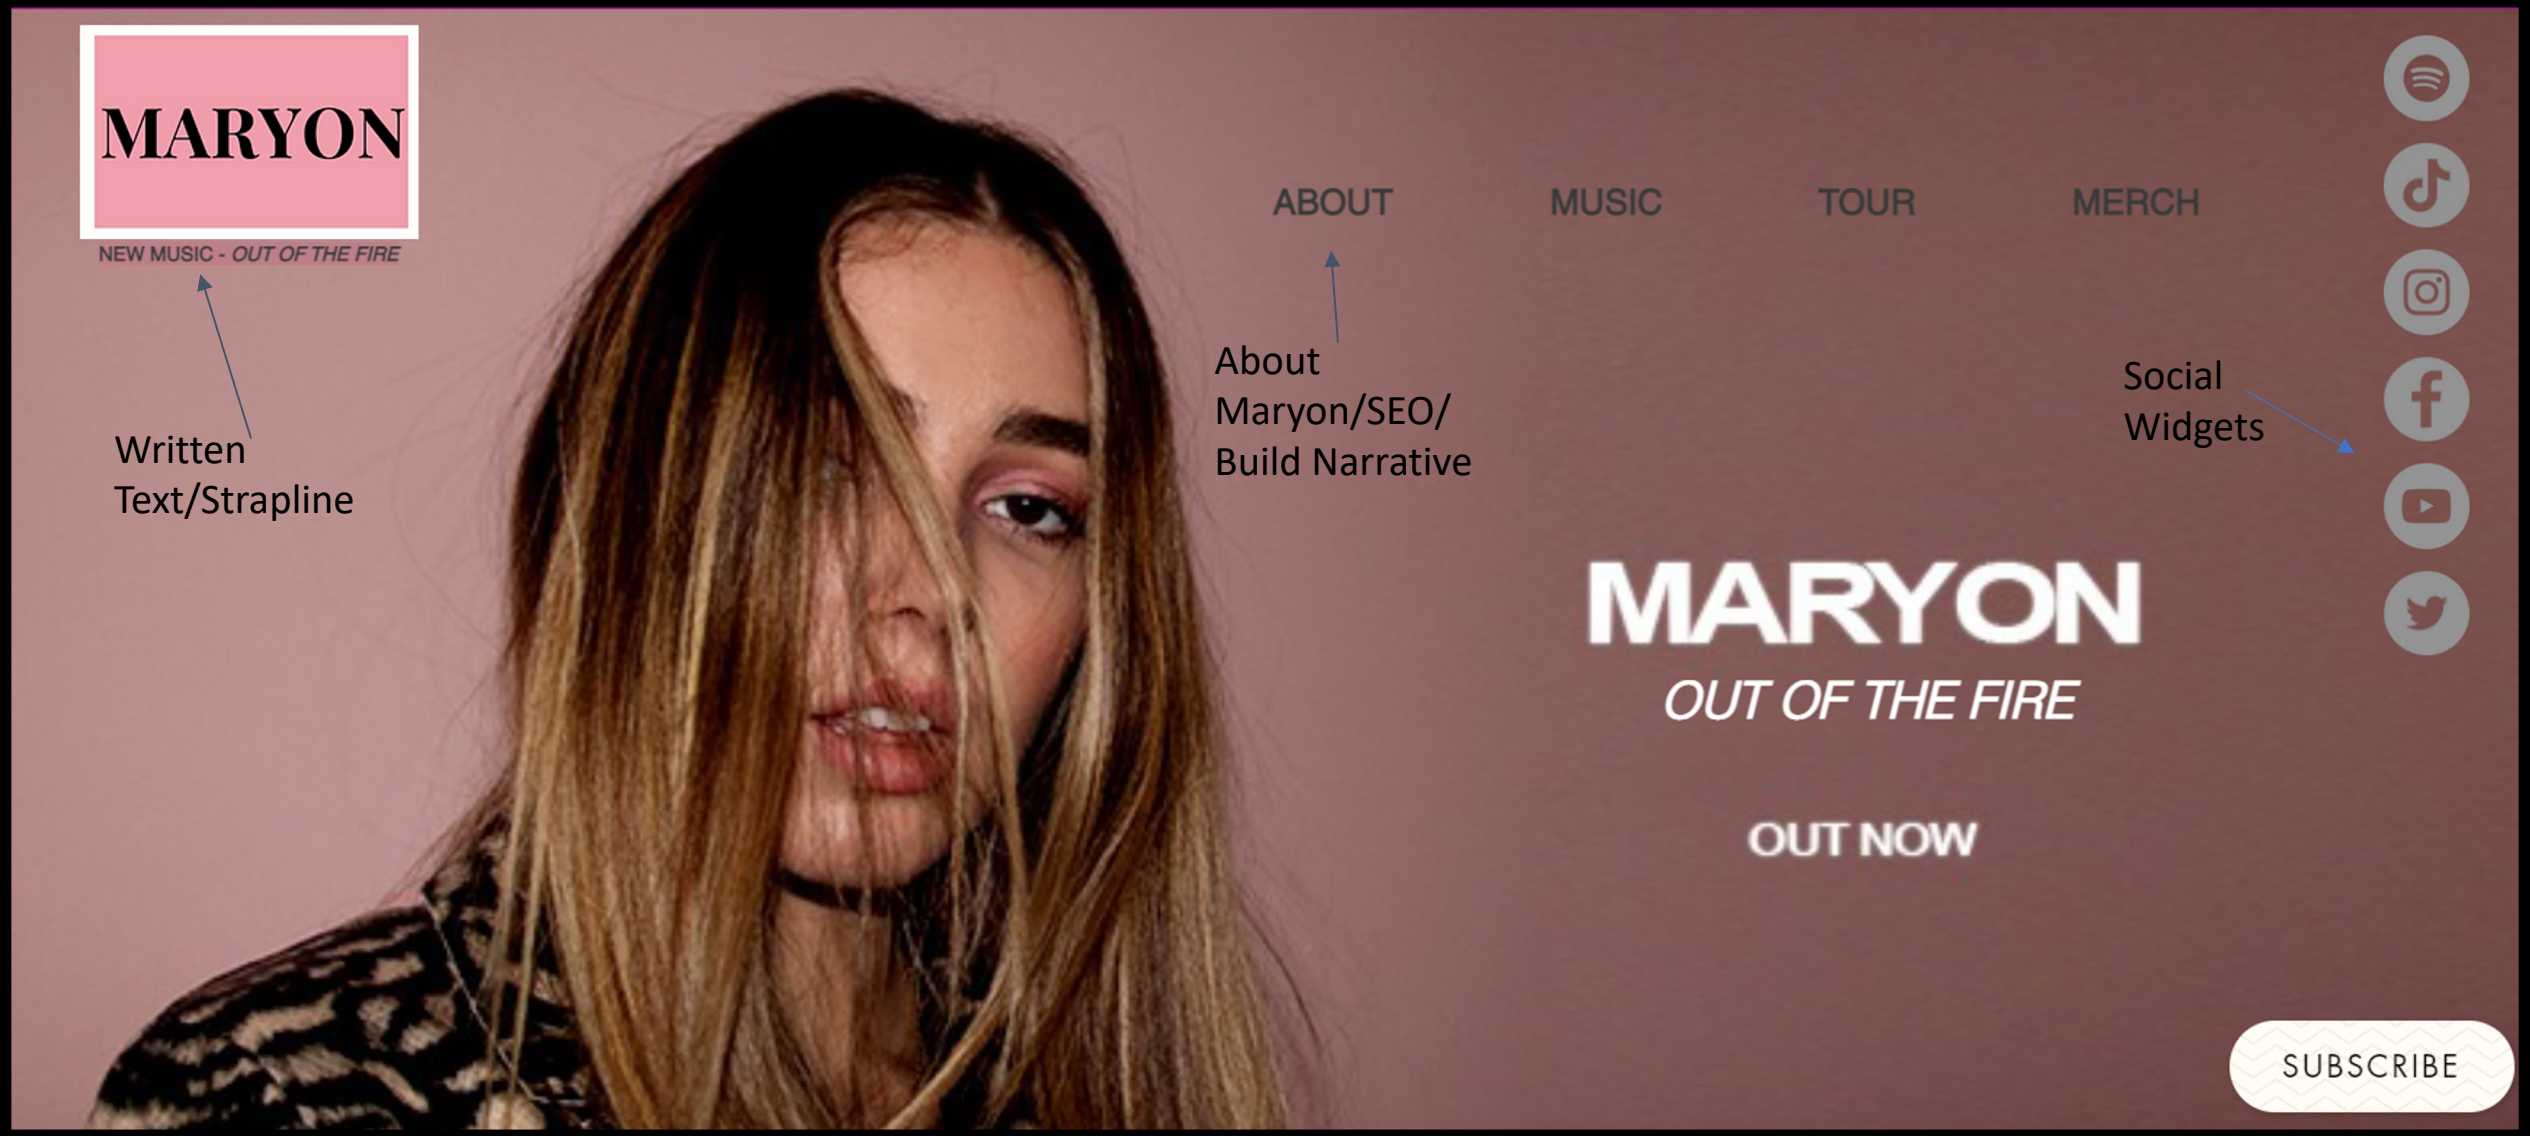

We feel that the combination of title, artwork and screenplay gives us huge creative scope when marketing this release.

- We've secured an exclusive premiere for the "Out of the Fire" music video which will go out via MTV UK on the 28th of May.
- We'll also be sharing this article via socials for an extra push to generate more hype.
