

A top-down view of a light blue desk surface. In the top left corner, a portion of a silver laptop keyboard is visible. In the bottom left corner, a portion of a black keyboard is visible. On the right side of the desk, there is a yellow rectangular eraser, a pair of red-handled scissors, a green marker, a yellow marker, a white spiral-bound notebook, and a blue watercolor palette with several colors of paint. A central blue rectangle contains the title and author information.

STUDY SPACE

BY SARA LARA / ID 2545741

ABOUT US

Study Space helps our students by offering easy tools for them to stay organised. We have very friendly tutoring teams that will support students at any learning pace, with small groups tailored to their needs. Our mission is to make quality learning accessible, engaging, and stress-free for every student.

Subjects we teach

- ☒ English
- ☒ Maths
- ☒ Science
- ☒ Business Studies
- ☒ Digital Skills

Scenario 3 Study Space Tutors

Decision & Iteration log

1. WHY I CHOSE THIS TOOL

I chose Adobe Express because it is great for creating posts, it has templates with text and images and is very easy to edit. It also lets you add videos and change the design. According to Hall (2022), “if you are looking to build your brand and up your social media game, a graphic design product such as Adobe Creative Cloud Express might be what you need.” (p. 54).

2. WHAT INFORMATION I USED

I used the schedules, prices, subjects, and contact details. I also added the unique thing that make this center from other study space in the scenario.

3. HOW I CREATED MY ARTEFACT

I went to the official Adobe Express website and downloaded the application for free. I selected an education template and change it with good, images and icons. After that, modified the color and fonts to make the brochure look better and easier to read. Finally, I checked my work, corrected any mistakes and saved the brochure.

4. WHAT CHANGES I MADE

I removed unnecessary things from the template because they were confusing. After that, I changed the font color, shape, and size to make it look clean. I Also added some icons about the topic to make the presentation look much better and more professional for the audience.

5. FEEDBACK I USED

The feedback said I should give more information about the history of the study center. This helps users understand it better.

Also, it recommended using icons to make the layout more interesting and easier to use. With this feedback, the final design has a good balance between text and images.

6. CONCLUSION

This tool is excellent because it helps create good advertisements for Study Space. It shows the most important information clearly to students so they can read it fast. Also, the platform works very fast and easy to learn. Because of this, it is a great tool to make quick prototypes when you do not have a lot of time.
