Dear Hiring Manager,

This letter is in regard to my interest in applying for the position of the Community Midwife which has been advertised on the official website of the Sandwell and West Birmingham NHS Trust Hospital. Enclosing with my CV, I consider myself a good fit for this position, as well as a strong candidate with strong attributes and a strong determination to perform this position at high standards.

Being a student at University of Wales Trinity Saint David has given me the opportunity to acquire the knowledge needed in order to acquire a set of skills that will allow me to perform this position at standards that will meet not only the hospital's requirements, but also the patients' needs and wants. I have always been passionate of the Health and Social Care sector, and now that I have the opportunity to perform within the field, I want to use all the knowledge and experience that I have acquired during my past performances in order to become the best candidate for this position, as well as a future employee that complies with the ethics and the responsibilities of the institution that I perform in.

I have always been an advocate of women, children, and doing everything that I could in order to protect both parts. I consider myself a good fit for this position because my past experiences have been the perfect openings for me to learn new skills and knowledge and add them to my vast range of attributes and characteristics. With my set of skills and the learnings gained during my years of study in university I have managed to make use of my fast-learning abilities and prepare myself for the challenges that involve working as a midwife.

I am committed to creating a safe environment for the patients and prepared to offer them the satisfaction that they crave. I am aware of the level of care and dedication that needs to be offered as a midwife, and I am assuring you that I am ready and committed in doing so. My past experiences have given me the opportunity to make use of the various environments that I found myself in and create connection with my customers, developing the skills and abilities necessary in order to detect what the customer wants and what are its expectations, and so I know that no matter the situations, and the complexity of the issues that I face, I know that my knowledge and my flexibility will allow me to act accordingly.

Therefore, this position will offer me the chance to demonstrate my aptitudes and the devotion that I have for the Health and Social Care sector, as well as all the attributes that will for sure heighten to the Hospital's and the patients' standards. I am more than ready to work with professionals in order to care for women with complex needs, to work collaboratively with women, offering support, respecting their right to make informed decisions about their care, and provide a support relationship while also monitoring the maternal and fetal well-being pregnant.

**ROXANA
GHERMAN**

I am looking forward to the opportunity to have an interview and sit down and discuss my application. You can contact me at any convenient time, via email or phone, as I am fully flexible with my schedules and can schedule an interview. References are available on request.

A handwritten signature in black ink, appearing to read 'Roxana Gherman', located below the main body of text.

Yours Sincerely,
Roxana Gherman
