

- 2) My favourite place is my farm because I take care of my horses and dogs up there and I'm able to spend time with them. I travel to my farm twice a day, before and after work, as my horse is stabled by night. This takes a lot of time and commitment from myself but it's worth it as I'm able to do what I love. Especially with the Coronavirus going around, I'm still able to travel to my farm and see my animals. This allows me to still have time away from my house throughout lockdown. I'm very lucky to be able to do this.

My other favourite place is the beach. I love the beach because it's very relaxing and I'm able to do mess when I'm there. I love taking my horses and dogs to the beach ~~and~~ which I ~~to~~ have done on numerous occasions.
