My first term at Uni

EWAN HOWELLS

Best bits of term 1

One the best bits of my first term was living away from home for the first time. This allowed me to make new friends and meet new people.

Being my first term in university it was always going to be very different than anything I've done before but I really enjoyed a new way of doing work and a different style of teaching.

Another thing I enjoyed about my first was the student life. Being able to handle my own money, going on nights out with friends.

Academic areas I would like to improve in

- ▶ There's a few areas that I know and feel like I could and also need to improve in such as maths and science. I feel I need to improve on these because I've always struggled with these topics so I need to make sure I put extra effort into them and ask for help if needed.
- ▶ Also solidworks is another area id like to Improve in. As much as I enjoy it I do sometimes find it difficult, so I need to keep using it and practicing so I can get the hang of it.

Reflection on my work

- ▶ During my first term I feel like I've done quite well at the motorsport aspect of the course as I enjoy doing the work. I also feel I've greatly improved in solid works, as before I found it very difficult but now I've improved I enjoy it but can still find it a challenge.
- ▶ I still want to improve in maths and science as I still find it a challenge and I know it will help me out with my course. But I know I'm making progress on it.

Overall Conclusion

- ▶ So over all I have really enjoyed my first term at university and have made a lot of new friends. I've really enjoyed doing something new and learning a new way of doing things. Living on my own has been an amazing experience and I cant wait to continue being in university and to keep learning.

Presentation notes

- ▶ First slide – things I enjoyed – why I enjoyed them – living away from home – university life.
- ▶ Second slide – academic areas – what I want to improve on – areas I need to improve in.
- ▶ Third slide – general reflection on my work – things to improve
- ▶ Fourth slide – overall thoughts on first term - reasons why

FINAL GRADE

7 / 20

GENERAL COMMENTS

Instructor

As this coursework was submitted late, it will be capped and the maximum mark it will be able to achieve is 40%.

You have put presenter notes at the end of the presentation, however these are very brief and do not provide much more information than what is on the slides.

You need to proof read your work before submitting, there are issues with some of your slides.

Remember that slides should just short brief points that are then elaborated on by the presenter when talking. Some of your slides have very long sentences on it, which read as if you would say them to the audience.

Think about include some images as these help to engage with the audience.

You have reflected on the term but there is limited information / depth to your presentation and so it is hard to really understand where you have done well or which subjects are a struggle.

In terms of the assessment criteria, I believe you fall in the 30-39% bracket, which says the following;

Largely descriptive work, with superficial evaluation of the underlying concepts and principles.
Information accepted uncritically, uses generalised statements made with scant evidence and unsubstantiated opinions. Ideas sometimes illogical and contradictory.

Mark Awarded

7 / 20 = 35%

Overall Coursework Mark (including Parts A, B, C, D & E) = 47%
