

Name: shama bibi

Student id: 2519612

Module code: LCHS4001

Lecture: Daniel Jenkin smith

Complete the template below (use the prompts in the Task 2 information document to help)

*** Take your time, there is no limit – you have until Friday of Week 9 to submit**

*** Use any notes you have already made to help**

*** The boxes will expand when you type**

section

Your response (Use your own words!)

1. Research

I chose to research the role of the surgeon because to find information I used to google scholar and the royal colleges of surgeon websites I struggled to understand how to find the right information and many medical articles used very hard words that were difficult to follow.

2. Presenting

For my presentation I made 5 mins video I tried to explain why I choose the surgeon role and how I used the CRAAP test to check my sources I used small notes to help me but I wasn't sure if I should read from the computer screen or from a piece of paper but it was hard to know exactly what the lecturers expected.

3. Challenges

The biggest challenge was starting the course late. Being so far behind made me feel nervous and confused while making the presentation I did not know the proper format to use. I felt stressed being in front of the camera which made it hard to keep eye contact.

4. Actions to improve

To improve, I need to practice my speaking, I will also ask for more help with structured my notes, so I do not have to look down at my paper so much. Now that I understand the instruction better, I will practice recording myself to build my confidence.

5. Further steps needed to Prepare for task 3

To prepare for Task 3, I will find five reliable sources of surgery. I will also create a clear plan for my report. I need to re-watch old lesson recordings to catch up on the research skills I missed by starting the course late. Finally, I will use the CRAAP test to ensure all my information is correct.
