

Profiad addysgu blaenorol Previous teaching experiences

.Month-long internship with the Ogden trust in a Secondary school in Summer 2017.

Amdana i About Me

I'm William, I've just graduated from studying Astrophysics at university. I like to keep fit by doing muay thai kickboxing with the occasional gym session. I also love to do anything outdoors from rock-climbing to windsurfing. Finally, I'm also just starting training to be a yoga teacher.

Y math o athro hoffaf bod The kind of teacher I aspire to be

I want to be calm and relaxed in my manner, but I'd like for there to be a good amount of respect and understanding between me and my pupils. I don't want to rule with an iron fist.

Cefndir academiaidd Academic history

.1st class Masters degree in Physics with Astrophysics.

Rhesymau dros ddewis addysgu fel proffesiwn Reasons for entering the teaching profession

I had quite a good experience in school, especially in terms of the physics I was taught in the later years. I think the reason I'd like to enter the teaching profession is because I'd like to give something back to the people who got me where I am today; by helping students to reach their potential and get to where they want to be, whatever that may be.
