IRENE.

Learning visual communication is my desire and I want to further my knowledge in this field. ~~It is~~ I have working some time when I was in college which let me know the meaning and distinguishing feature of graphic design. In the future, I would be a designer and I want to ~~attractive~~ attracts people to my work and idea.

I'm interested in illustration most because I can ~~paint~~ draw everything that I'd ~~like~~ ^{like} to express such as dream, hope and so on. Actually I also can find something ^{new} that I don't ~~yet~~ realize before during the process that I ~~creat~~ create a painting, because I have to observe a lot of thing for creating.
