

Assessment 1 Tutorial

27th October 2025

Assessment 1

Relevance to education over the last 60 years.

Changes in Education over the time of outdoor centres.

1963

Half our Futures (Newsom Report – England)

- Time and Resources to those average and below average
- Raise school leaving age to 16
- Hay day for Outdoor Education Provision

2015

Donaldson Report (Wales)

- Move back to child centered learning – health and wellbeing one of the six key areas of learning
- More emphasis on equipping young people for life
- Successful Futures

1988

National Curriculum (England and Wales)
Added pressures to outcomes – Teaching to the test

Relevance to Natural Environment

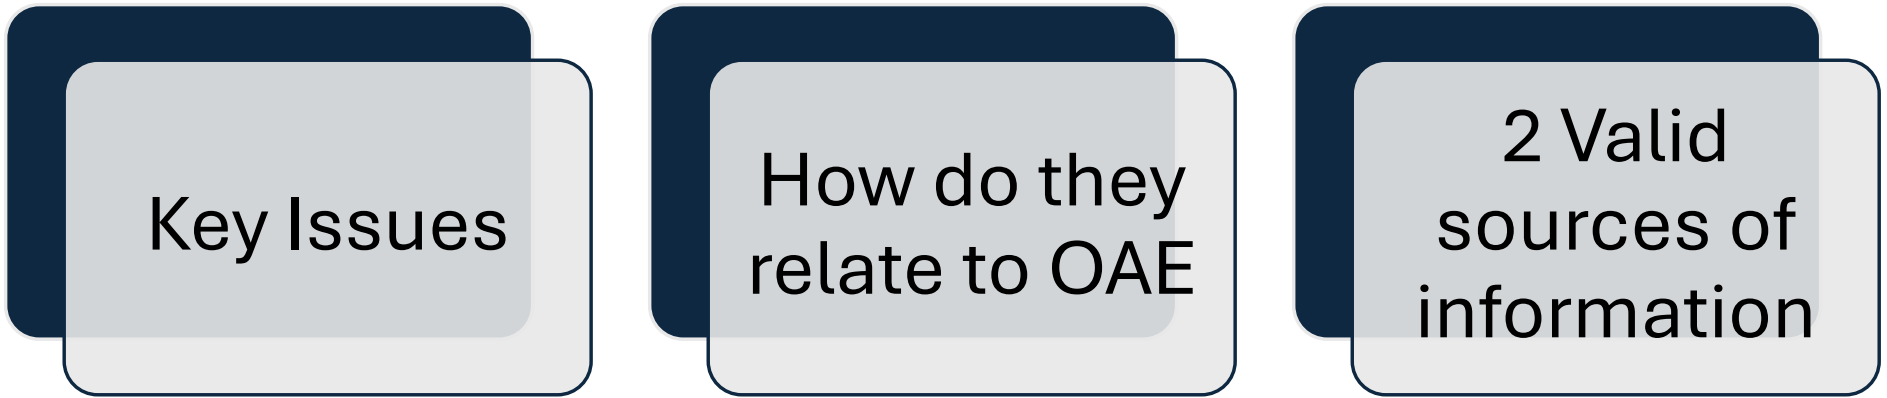

Key Issues

How do they
relate to OAE

2 Valid
sources of
information

Relevance to Health and Wellbeing

Key Issues

How do they
relate to OAE

Theories to consider in your arguments as to the value of OA

Do they support or challenge your opinion on the value of OA

Are they applicable in an OA setting (Reflection and Active Experimentation) and if so are they transferable to everyday life (Abstract conceptualisation and Practical Application)

Fitting it all together!

- **Introduction** – Not a repeat of the question. Introduce in brief what you are going to be discussing... write this last
- **Main Body**
 - Decide what your main points are going to be (what are the values you are going to discuss), collect the evidence (literature, personal experience)
 - Support your points by relating to theories
 - Apply your arguments to the real world – practical application
- **Conclusion** – Bring it all together
- **References**
