Respondent	Response
	I could not be engaged with the module as I should (prepared for each week, make weekly readings, etc) because it overlapped with the previous modules of the last term, and since I'm a full student, when this module started I had 4 modules at a time (History, RCC, Skyscapes and CMD). Even though, I enjoyed the module and its contents a lot. Tutors are experts in the field and supported me when I needed. So, thank you. I know that the module is titled "History of Astrology", but since the MA is Cultural Astronomy and Astrology, it could be a good idea to change its contents and title to "History of Astronomy and Astrology" and therefore have a little more about History of Astronomy. The online library of the UWTSD doesn't offer much material. Maybe enough to perform well, but the tuition fees are too expensive to not have everything available as a person that lives in the UK and can go and visit the University's libraries and make the most out of it. Brilliant and enlightening module - however, the wealth of material is phenomenal. New material requires time to absorb. Tutors all fantastic, knowledgeable and appear to be specialists in the field. Overall, loved the module so much, it was a pleasure to study!!
