REMINDER

- The main idea is the overall message of the whole text.
- A key point helps to explain the main idea.
- A specific detail or example from the text shows that the key point is true.

1. What is the main idea of the whole text?

The text is about how social media helps small businesses grow. It helps them show their products to more people and get more customers, which can help the business become more successful.

2. What is one key point that supports the main idea, and which specific example from the text shows this?

One important point is that social media is a cheap way to advertise. For example, businesses can use Instagram and Facebook to show people their products without investing a lot of money.

3. What is a different key point that supports the main idea, and which specific example from the text shows this?

Another point is that social media helps businesses reach people in different cities. For example, they can sell products to people all over the UK and get more customers.

4. Which part of the text do you think is most important, and why?

I think getting more customers is the most important part because a business needs people to buy their products to make more money. Social media helps more people find out about the business.

Reflection:

5. What did you find difficult in this task (including in-class components), and why was it difficult?

I found difficult to pick main points because there was alot of information to think about. I also found it hard to put some ideas into my own words.

6. What helped you with this difficulty, and how did it help you?

Looking at my mind map helped me understand the main ideas better. It also helped me organise my thoughts and decide what to write for each question.
