

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
What is the essence of this report - its all about you and experiences gained over the academic year - ask the question, how did you become a better student ?	20	5
2. Knowledge and Understanding Skills		
A fair amount of discussion does show you potentially have the necessary skills to progress - so why have you not demonstrated the progress made - a missed opportunity	20	5
3. Cognitive and Intellectual Skills		
Generally, the lack of evidence (which was easy to obtain is missing) and the discussion that relates to your studies this year and how you progress (as a student) is not obvious. You need to reflect on the situation	20	8
4. Practical Application Skills		
A per title of this section "Practical Application Skills" - you have discussed, but where is all the relevant evidence that is needed to support your progression from L3 to a L4 student. More importantly, reading the assessment brief and asking Q's is considered important. What is more weird - you have carried out a presentation, feedback has discussed, but where is the presentation - common theme of evidence requirements !!!	30	12
5. Transferable Skills for Life and Professional Practice		
There is some argument that you have crafted a well presented report. But you need to reflect on how reports are constructed - this was discussed in lectures. Obviously, you must have carried out some research - so why was it not documented.	20	6
