

MODULE REVIEW MODULE TUTOR - REPORT FORM

The review of a module is carried out initially by the Module Tutor. When the module review is completed, its findings are considered by the Head of School or Programme Director and noted at the School's Annual Programme Review. This form is not compulsory but is provided to support the module review process.

Academic Session:

2015-2016

Module Title:

Database Management Systems

Module Code:

ACCC5001

Student Feedback

Number of students registered and eligible to complete the questionnaire: 5

Number of returns: 5

Legitimate issues/ positive comments raised by a significant number of students (Please note number of students): 1 issue

Lectures are not clear.

Module Tutor's response to points raised by the students:

Despite of an interesting module, students find the subject bit harder due to the difficulty in understanding the concepts and not paying serious attention to the subject which is required. Also, due to an 'Administrative Rights' and security issues, restricted the students to implement a Database in SQL SERVER at the beginning of the term.

In what way might the module be improved in terms of content, delivery and assessment?

- * Make sure SQL SERVER MANAGEMENT STUDIO is working properly for all the students by creating/allowing them full Privilege to use SSMS software.
- * Giving the students more exercises to learn the SQL statements.
