The following adjustments are to be made:

- a. The company issued the 5.9% bonds with a nominal value of £1000 at par on 1.1.05. Redemption is at a premium of £250 in 5 years time and the effective rate of interest is 10%.

The figure in the trial balance represents the creditor carried forward from 2007.

- b. In its operating activities Practice Ltd has damaged the environment surrounding its factories in a significant manner. This is due to harmful chemicals generated from the manufacturing process being buried in the surrounding land. After a government inspection in September 2007 it was confirmed that Practice Ltd is responsible to rectify the damage incurred. Practice has estimated that this will be at a cost of £35000. This amount, however, will not be due to be paid until 31st December 2010. Due to the current regulations operating in the country, there is no legal requirement for Practice to incur these costs. However, it wishes to be seen an environmentally friendly company and has a proven reputation for rectifying any damage that occurs to the environment as a result of its operating activities.
- c. Depreciation is to be provided in the accounts for the year at the following rates:
 - Buildings 2% straight line
 - Plant & Equipment 20% straight line

- d. Corporation tax based upon the profits for the year amounting to £2600 is to be provided for.

The deferred tax liability is to be increased to £2000

Requirement

- a. Prepare the profit and loss account of ~~Woke~~^{PRACTICE} Ltd for the year ended 31 December 2008 and the balance sheet at that date.

N.B. Use a discount rate of 5% where necessary.

- b. Calculate the earnings per share for 2008.
