

Title: Essential skills for studying and employment

Student name: luke spink

Tutor name:

Hello, my name is Luke spink and I'm her today to explain why you will need the skills for studying and employment. Whether you are in school university or in employment you need the essential skills to succeed in your academic career or your job title. Get your teacher or lecturer or employer to explain in depth the skills you as a student to succeed. Higher education has changed radically over the last decade and is still in the process of change. There are books designed to give you a in depth Insite with the skills you will need to progress in the workplace or university you are trying to achieve the skills you will need to succeed. Skills you will need are skills like problem solving creative thinking paragraphing critical thinking just to name a thew. You can also use websites such as google scholar YouTube and Wikipedia just to name a thew. You will have to have leadership skills and be very adaptable to work in team as you will be doing group tasks and working in a team you will have to be polite and respectful to all your fellow classmates or colleagues in the workplace. You will have to good self-esteem to progress and achieve the grades you will need to progress in the career path you have chosen. You also need to be able to put your own personal life to one side sometimes and be respectful and polite to your colleagues or fellow classmates: i.e. students' employers and tutors.
