

Module Code	ECAP4010
Title	Introduction to Biological and Cognitive Psychology
Date	28/10/2022
Level	4
Credits	20
Pre-Requisites	None

AIM(S)

- To introduce students to the theories and applications of the biological basis of behaviour and human cognition.

LEARNING OUTCOMES

Upon the successful completion of this module, the student should be able to:

- demonstrate an understanding of theory and research relating to memory, attention and perception;
- demonstrate an understanding of the parts and function of the brain and nervous systems;
- demonstrate an awareness of the biological basis of behaviour and cognition, exploring neurological disorders related to behaviour and cognition;
- take responsibility for their own learning and skill development; including effective personal planning, self-reflection and project management skills.

INDICATIVE CONTENT

- An examination of the historical development of cognitive psychology and biological psychology.
- Consideration of a range of theories and research relating to perception and attention.
- Exploration of ideas and research relating to human memory and problem-solving.
- Exploration of the parts and functions of the brain, nervous system and endocrine system and the relationship between behaviour and cognition.
- Consideration of the research methods used in biological psychology and their ethics and relevance to human psychology.
- Examination of the theories drawn from biological psychology experiments.

Study Time Allocation

The study time for the module is divided as follows:

Activity type	Hours	Percentage
Scheduled learning	30	15%
Independent learning	170	85%
Placement learning	0	0
TOTAL	200	100%

ASSESSMENT

Assessment Component 1

☒ Written exam ☐ Coursework ☐ Practical

Mode of assessment	Volume	Weighting
Multiple Choice Test	1 hour	50%

Assessment Component 2

☐ Written exam ☒ Coursework ☐ Practical

Mode of assessment	Volume	Weighting
Essay	2,000 words	50%

Assessment Summary

Activity type	Percentage
Written exam	50%
Coursework	50%
Practical	-
TOTAL	100%

This module is a core requirement for Graduate Basis for Chartership (GBC) accreditation with the British Psychological Society (BPS) as set out in documentation to the BPS (2019).
