ABOUT

HI, I'M LAURA, BUT PEOPLE CALL ME LO & I'M A GRAPHIC DESIGNER & PHOTOGRAPHER.

To sum me up, I am a very experienced, adaptable photographer/graphic designer with a broad skillset and expertise in many aspects of design, but I don't just take and make pretty pictures. I am extremely passionate about all aspects of design with a critical eye for detail and prepared to go that extra mile to get perfect results every time, no matter the size or complexity of the project.

I am self-motivated and work under my own initiative to manage my own workload, ensuring deadlines are met to the highest quality whilst using my people management skills to delegate as appropriate.

I believe communication, collaboration and a supportive approach are the keys to a successful work environment, which is why I strive to push these qualities in myself and any team I work with, whether that's in-house or freelancers.

I am naturally inquisitive and a quick study. If I do not know how to do something, I will go out of my way to find out and you will often find me playing with new software in my spare time to develop my skills further and to keep ahead of design initiatives and trends.

I am currently looking to find my next challenge and step on the career ladder. I would relish the opportunity to show what I can do and deliver for your company.

Please see [my portfolio](#) for an accurate reflection of my skills, experience and passion for photography and design.

INTERESTS

I am a big fan of gaming, comics and films, I'm a big geek at heart.

I enjoy photography and take my camera with me wherever I go. I am also very creative at home and enjoy making comicon costumes and on occasion I have guested at various comic con events talking about photography, design and the logistics of making a costume and accessories.

I also enjoy keeping fit by roller-skating. As the mum of a very active 7 year old I am always on the go and enjoy being outdoors whenever I can.
