Engagement with Literature Skills	20
Feedback	Marks
To do well in this section, you are expected to in-text cite from the references listed, use relevant, diverse sources of academic credible literatures and industry whitepapers addressing the key concepts on Routing, VPN, DHCP, ADDS, ADCA in your presentation using appropriate referencing conventions. Where possible you are expected to critically appraise the literatures engaged. Routing Protocol concepts presented. In-text citations done. Could have listed the literatures referred to the work. Concepts like VPN, DHCP, AD-DS, CA were not presented.	9.9

Knowledge and Understanding Skills	15
Feedback	Mark
To do well in this section, you are expected to reflect your understanding on Routing Concepts, Summarizing VPN, DHCP, ADDS, CA in your Presentation referring to any real-world example on routing protocols deployed in a production environment addressing different network scenarios. Note that, you are expected to present a reflection on the above and not a "what is what" answer Reflected your understanding on routing concepts, its roles etc. Could have elaborated on case study referring to real work examples.	6.6

Cognitive and Intellectual Skills	15
Feedback	Mark
To score high marks in this section, you need to show evidences on installing RRAS, modifying Firewall, configuring S2S VPN setting up appropriate domain controllers with suitable DNS records. These needs to be demonstrated by executing the Powershell scripts provided to you to check the status. Could have provided with annotations. Very difficult to follow the documentation. Could have executed the scripts provided to check the working status of your configuration.	12

Practical Application Skills	40
Feedback	Mark
To do well in this section, you need to add London network as a child domain, create user accounts as per condition, mount second disk drive, configure DHCP and test the network using Powershell Scripts. Further, you are expected to Share Disk drive to users as per conditions, Configure IIS, enable authentication, and allow RDS with necessary certificates signed. You have done configurations, however the flow is very difficult to follow. FI: Swansea was not expected to be a DHCP assigned network? - Sharing permissions done, however mounting second drive was not clearly documented. IIS Server configurations and RDS could have been documented with more clarity.	28.6

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
To score high you need to ensure that the document is of high quality and professionally done with a good flow of ideas proper use of spelling and grammar tools and a neat presentation. Presentation done. Annotations could have helped in understanding the flow of your work. Did a good work, however need to be documented well.	8

Overall Mark	65
