

I choose to present a poster showing safety in three different aspects of daily life because it is crucial to be aware of safety in our environment, no matter what we do or where we are.

Basic Digital Safety

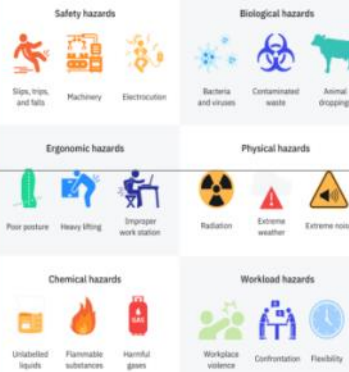

Safety at Home

Safety at Work

Six types of workplace hazard

Understanding workplace risk...

Risk assessments are essential to determine the type and severity of threats your employees face whilst at work. Appropriate steps should then be taken to reduce or eliminate harm.

Safety at Public Place

Safety in public places

The killing of 26 people in a rural Texas church is just the latest mass shooting in a public place. In recent years, mass killings have occurred at concerts, movie theaters and schools. These shootings raise questions about how safe public spaces are.

Schools and churches	Places of business	Entertainment venues
 2015 - Uniqua Community College Reading, OR - 9 killed 2008 - Northern Illinois University DeKalb, IL - 6 killed 2007 - Virginia Tech University Blacksburg, VA - 32 killed	 2012 - Aurora Hospital Minneapolis, MN - 7 killed 2006 - Papyrus Facility Gaines, CA - 6 killed 2000 - Englewood Technology Inc. Riverside, CA - 7 killed	 2017 - Sandy Hook Elementary School Newtown, CT - 27 killed 2008 - West Nickel Mines Amish School Lancaster County, PA - 6 killed 2005 - Red Lake Senior High School Red Lake, MN - 10 killed
