

Obtaining a copy of SPSS Statistical Software in readiness for the BMDS7004 Data Analysis Module

Hello everyone, here is a little guide that will enable you to get a licensed copy of **SPSS software** ahead of BMDS7004. Do this ASAP and you should be fine. Note we may encounter problems of it not working behind the NHS firewall etc. in that case, raise that issue with your IT helpdesk on an individual basis. You have to apply for the software individually too, as it is on a personally signed licence. You may also need permissions to download the software via your work accounts.

Step 1 - Go to UWTSD IT helpdesk – you should get a blank form:
<https://webhelp.uwtsd.ac.uk/helpdesk/WebObjects/Helpdesk.woa>

Step 2 – Request type is Request for Software & Drivers – see below.

Step 4– you should get an acknowledgement as below and a download link in the mail.

Please test it out and see its working fine ahead of the course starting.

The screenshots are as they appear on a Mac, I think the PC would be identical.

Best wishes
