

LEVEL 7 ASSESSMENT SPECIFICATION

Student name:		Student ID number:	
Programme:	MSc (Cybersecurity and Digital Forensics)		
Module:	Enterprise Network Security		
Module code:	ACCA7032	Contribution to Overall Module Assessment (%):	100%
Lecturer:	Renuga Jayakumar	Internal Verifier:	Munyaradzi N Murira
Assignment Title:	Applied Network Security in Practice	Word count (or equivalent):	5000
Submission deadline:	CTF - Demonstration: Week 10: Wednesday, 2 nd December 2026 Report :4th December 2026	Return date of provisional marks & written feedback:	11th January 2027
Submission method:	All written assessments, where practical and possible, must be submitted via Turnitin unless otherwise instructed by the Lecturer. (Please DO NOT put this assessment specification into Turnitin or it will match many similarities with other students' submissions.) Alternative submission method (if applicable): Late submission of the assessment will result in a late penalty mark: Work which is submitted up to 1 week late will be capped at 50% for the first attempt and will be awarded a mark of 0% for re-assessment. Late submission penalties may be lifted only if there is an approved extenuating circumstances claim. Work submitted more than 1 week late will be considered as a non-submission and will not be marked. The work may be considered as a submission for reassessment if offered by an Examining Board or if there is an approved extenuating circumstances claim.		
Academic honesty / referencing:	Academic honesty is required. In the main body of your submission, you must give credit to authors on whose research and ideas your work is based. Append to your submission a reference list that indicates the books, articles, etc. that you have used, cited or quoted to complete this assessment.		
Work over the word limit:	To support fairness and good academic writing, each assessment has a set word limit. It's important that you stay within this limit. The word limit helps ensure: - You write clearly and concisely. - All students complete the assessment on an equal basis.		

If You Go Over the Word Limit

If your work exceeds the word limit, the following penalties will normally apply. These deductions cannot take your mark below the pass mark for the module.

Amount Over Limit	Penalty Applied
Up to 10% over	No penalty
10%–25% over	5-mark deduction or reduction to the capped mark (whichever is the smaller penalty)
26%–50% over	10-mark deduction or reduction to the capped mark (whichever is the smaller penalty)
Over 50%	Mark capped at the pass mark

Examples (Postgraduate):

- A mark of **54%** would be reduced to the pass mark of **50%** if the work is 10–25% over.
- A mark of **67%** would be reduced by 5 marks to **62%**.
- A mark of **59%** at 25–50% over would be reduced to **50%**.
- A mark of **64%** at 25–50% over would be reduced by 10 marks to **54%**.

If You Are Under the Word Limit

If your work is significantly under the word limit, you may lose marks because your submission may not contain enough detail to meet the learning outcomes.

Feedback

If a word-limit penalty is applied, this will be stated clearly in your feedback, along with the reason.

**Module Learning Outcomes
(from module syllabus)**

1. Demonstrate a systematic understanding of a wide range of current research and technological advances in network security underpinning the key elements of unified security management architecture in managing and monitoring network traffic;
2. Apply the principles and practices of network security for mitigating the key technical security vulnerabilities that organisations face and gain insight on how security features are enabled, and policies applied.

TASK DESCRIPTION

Use of Generative AI in Assessment

(Lecturer to indicate Yes or Not against each element)

RESEARCH	For this assessment, you can use Generative AI to support you in research and data analysis.	Yes ☒ No ☐
STRUCTURE	For this assessment, you can use Generative AI to support you in structuring your submission, including creating a draft argument structure, identifying parts and headings, etc.	Yes ☒ No ☐
PROOFREADING	For this assessment, you can use Generative AI to check your own text/creation for grammatical and syntactical mistakes, including getting suggestions to rephrase your work.	Yes ☒ No ☐
WRITING	For this assessment, you can use Generative AI to create text for submission.	Yes ☐ No ☒
CREATIVE	For this assessment, you can use Generative AI to create creative materials, such as images.	Yes ☐ No ☒
PROGRAMING	For this assessment, you can use Generative AI to create and check code.	Yes ☐ No ☒
NONE	For this assessment, you are not allowed to use any type of Generative AI support. This includes research support, structure support, writing/proofreading support and creative support.	☐

Overview

Two parts of the portfolio in this assessment. The deadline for each part is different.

1. Portfolio (Part 1) Capture the Flag (20%)
2. Portfolio (Part 2): Analysis, Design, and Implementation of a Network Security Solution (80%)

Part 1 – Capture the Flag (CTF)

Enterprise Network Deployment and Verification (20%)

Note: Submission deadline: **Wednesday, 2nd December 2026 – The submission will be done on Moodle**

Figure 1: Enterprise Network

The Part 1 is designed to assess your practical skills in deploying and configuring essential enterprise network services using “Capture the Flag (CTF)” challenge to verify and test your understanding of this enterprise network setup.

Refer to Figure 1: The Enterprise Network consists of two sites: SWANSEA.ACCA and LONDON.SWANSEA.ACCA

Scenario:

As part of the initial practical exercises done in the class (refer to Figure 1), you will interact with virtual machines (VMs) to configure, locate misconfigurations, and capture the flags. You are expected to identify the flags (Flags are unique text strings). The Capture the Flag Task will be

available on Moodle for you to record the flags **for one week**, giving you sufficient time to engage with the network topology and submit your flags.

The topology includes the following core network services, with some pre-configured and others yet to be configured:

- DNS (Domain Name System)
- Firewalls with appropriate rule sets
- Active Directory Domain Controller (AD DC), including a child domain
- VPN (Virtual Private Network) – Site-to-Site (S2S) connection
- DHCP (Dynamic Host Configuration Protocol)
- IIS (Internet Information Services) Web Server
- User accounts added and managed within Active Directory

Evaluation Criteria:

- ✓ Successful identification and capture of all CTF flags

Part 2 - Securing the Enterprise Network

Implementation of a Network Security Solution (80%)

Submission Date:

You will be allocated a 30-minute slot: 15 minutes for the demo and 15 minutes for questions and answers, including the submission of screenshots on Moodle.

Part 2

Securing Enterprise Network

Figure 2: Securing Enterprise Network

In Part 2, you will be required to secure the Enterprise Network using GAIA appliances. After completing the security configurations, you will prepare to demonstrate your work. A submission link will be provided, where you must upload a report prior to your demo. The report should include screenshots of all completed configurations. During your assigned slot, you will give a demonstration of your work, providing detailed explanations and justifications for your configuration choices. All demonstrations will be recorded for assessment purposes.

Briefing

Building on your deployment from Part One, you will now secure the enterprise network by implementing best practices and additional security measures, including but not limited to:

1. Modify the existing topology in Part One by adding a Check Point **Security Management Server** (SMS) with Gaia OS, which centralises the security policy management. You will need to install **Smart Console** on your management workstation to centrally administer the security infrastructure, connecting it to the SMS for policy management, event monitoring, and updates. You must apply the appropriate licences on both the SMS and Check Point appliances as per the Check Point manual guidelines, verify they meet the module requirements, and document the licensing status and expiration details. (30%)

Key Aspects:

- ✓ Installation and Configuration of A-GW, A-SMS, A-GUI with appropriate IP Addresses and User Profiles.
 - ✓ Licensing the Check Point **Security Management Server**.
 - ✓ Successful connectivity between Swansea Network and A-SMS.
 - ✓ Demonstrate your work
2. Define and enforce firewall rules that restrict unauthorised inbound and outbound traffic, based on a real-life enterprise security policy, which you will need to justify. Implementation of additional security features—such as enabling IPS and anti-malware protections and configuring user authentication and identity awareness to control access based on user roles and groups—will be considered an added advantage. (30%)

Key Aspects:

- ✓ (NOT LIMITED TO)
 - ✓ Configuring adequate rules like Allowing/Blocking ICMP, FTP, HTTP, Telnet, SSH Traffic etc inbound and outbound to the Network.
 - ✓ Demonstrate your work
3. Enhance the security of your enterprise network by implementing any additional security features that align with recognised industry standards. You are encouraged to consult the official Check Point guidelines to identify and apply any advanced security functionalities that further strengthen your network infrastructure. (20%)

Key Aspects:

- ✓ (NOT LIMITED TO)
- ✓ Propose additional security features using Gaia Appliances
 - For example,
 - configuring adequate rules enhancing user access controls
 - User Groups with limited access (web servers/websites, etc.)

- ✓ Implement the proposed additional security features using Gaia Appliances
- ✓ Demonstrate your work

NB: As you complete each practical task, ensure you capture evidence by taking screenshots—preferably with visible timestamps. These will be compiled into a report that must be submitted after your final demonstration.

GUIDANCE FOR STUDENTS IN THE COMPLETION OF TASKS

NOTE: The guidance offered below is linked to the five generic assessment criteria overleaf.

1. Engagement with Literature Skills

Your work must be informed and supported by scholarly material that is *relevant* to and *focused* on the task(s) set; you should make use of scholarly reviews and primary sources, as appropriate (for example, refereed research articles and/or original materials appropriate to the discipline). You should provide evidence that you have accessed a wide *range* of sources, which may be academic, governmental and industrial; these sources may include academic journal articles, textbooks, current news articles, organisational documents, and websites. You should consider the *credibility* of your sources; academic journals are normally highly credible sources while websites require careful consideration/selection and should be used sparingly. Any sources you use should be current and up-to-date, mostly published within the last five years or so, though seminal/important works in the field may be older. You must provide *evidence* of your research/own reading throughout your work, using correctly a suitable referencing system, including in-text citations in the main body of your work and a reference list at the end of your work.

Guidance specific to this assessment:

2. Knowledge and Understanding Skills

At level 7, you should be able to demonstrate a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of your academic discipline, field of study or area of professional practice, with a comprehensive understanding of techniques applicable to your own research or advanced scholarship. Your work must demonstrate your growing mastery of these concepts, principles, current challenges, innovation and insights associated with the subject area. *Knowledge* relates to the facts, information and skills you have acquired through your learning. You demonstrate your *understanding* by interpreting the meaning of the facts and information (knowledge). This means that you need to select and include in your work the contemporary concepts, techniques, models, theories, etc. appropriate to the task(s) set. You should be able to explain the theories, concepts, etc. meaningfully to show your understanding. Your mark/grade will also depend upon the *extent* to which you demonstrate your knowledge and understanding; ideally each should be complete and detailed, with comprehensive coverage.

Guidance specific to this assessment:

- *Successful identification and capture of all CTF flags*

3. Cognitive and Intellectual Skills

You should be able to: evaluate critically current research and advanced scholarship in the discipline; evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses; deal with complex issues both systematically and creatively to make sound judgements in the absence of complete data. Your work must contain evidence of logical, analytical thinking, evaluation and synthesis. For example, to examine and break information down into parts, make inferences, compile, compare and contrast information. This means not just describing what! But also justifying: Why? How? When? Who? Where? At what cost? At all times, you must provide justification for your arguments and judgements. Evidence that

you have reflected upon the ideas of experts within the subject area is crucial to you providing a reasoned and informed debate within your work. Your choice of methodologies to gather data and information must be rigorously defended. Furthermore, you should provide evidence that you are able to make sound judgements and convincing arguments using data and concepts. Sound, valid, persuasive conclusions are necessary and must be derived from the content of your work. Where relevant, alternative solutions and recommendations may be proposed.

Guidance specific to this assessment:

- *Propose additional security features using Gaia Appliances*

4. Practical Skills

At level 7, you should be able to demonstrate originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline. This includes acting autonomously in planning and implementing tasks at a professional or equivalent level, originality in tackling and solving problems, and decision-making in complex and unpredictable contexts or situations.

You should be able to demonstrate mastery of the leading-edge subject-related concepts and ideas as they relate to real world situations and/or contexts. How do they work in practice? You will deploy models, methods, techniques, and/or theories, in those contexts or circumstances, to assess current situations, perhaps to formulate plans or plausible, justifiable recommendations to solve problems, or to propose new models, or to create artefacts, which may be innovative and creative, thereby demonstrating your understanding of how the boundaries of knowledge are advanced through research and/or application. This is likely to involve, for instance, the use of real-world artefacts, examples and cases, the application of a model within an organisation and/or benchmarking one theory or organisation against others.

Guidance specific to this assessment:

- *Installation and Configuration of A-GW, A-SMS, A-GUI with appropriate IP Addresses and User Profiles, Licencing the Check Point Security Management Server, Successful connectivity between Swansea Network and A-SMS.*
- *Configuring adequate rules like Allowing/ Blocking ICMP, FTP, HTTP, Telnet, SSH Traffic etc inbound and outbound the Network.*
- *Implement the proposed additional security features using Gaia Appliances*

5. Transferable Skills for Life and Professional Practice

Your work must provide evidence of the qualities and transferable skills necessary for postgraduate-level employment in circumstances requiring sound judgement, personal responsibility and initiative in complex and unpredictable professional environments. This includes demonstrating: the independent learning ability for continuing professional development to advance existing skills and acquire new competences of a professional nature that will enable you to assume significant responsibility within organisations; that you can initiate and complete tasks, projects and procedures, whether individually and/or collaboratively, to a professional level; that you can use appropriate media to effectively communicate information, arguments and analysis in a variety of forms for a variety of audiences; fluency of expression; clarity and effectiveness in presentation and organisation. Work should be coherent and well-structured in presentation and organisation.

Guidance specific to this assessment:

- *Demonstrate your work on Modifying the topology to accommodate GAIA appliances, Licensing and successful connections.*
- *Demonstrate the implemented inbound and outbound traffic rules as outlined in Question 2*
- *Demonstrate your work on implemented additional security features using Gaia Appliances*
- *Response to questioning*

STUDENT FEEDBACK FORM

This section details the *extent* to which the assessment criteria are demonstrated by you, which in turn determines your mark. The marks available for each category of skill are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Generic Assessment Criteria	Marks available	Marks awarded
1. Engagement with Literature Skills	NA	
2. Knowledge and Understanding Skills 1. <i>Successful identification and capture of all CTF flags</i>	20	
3. Cognitive and Intellectual Skills 1. <i>Propose additional security features using Gaia Appliances</i>	5	
4. Practical Application Skills 1. <i>Installation and Configuration of A-GW, A-SMS, A-GUI with appropriate IP addresses and User Profiles, Licencing the Check Point Security Management Server, Successful connectivity between Swansea Network and A-SMS: 20</i> 2. <i>Configuring adequate rules like Allowing/ Blocking ICMP, FTP, HTTP, Telnet, SSH Traffic etc inbound and outbound the Network: 20</i> 3. <i>Implement the proposed additional security features using Gaia Appliances: 10</i>	50	
5. Transferable Skills for Life and Professional Practice 1. <i>Demonstrate your work on Modifying the topology to accommodate GAIA appliances, Licencing and successful connections. (10)</i> 2. <i>Demonstrate the implemented inbound and outbound traffic rules as outlined in Question 2 (10)</i> 3. <i>Demonstrate your work on implemented additional security features using Gaia Appliances (5)</i> NB: Marks allocated in demonstrations include response to questioning	25	

Assessment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)	Late Submission Penalties (tick if appropriate)		%
	Up to 1 week late (50% Max)		
	Over 1 week late (0%)		

GENERIC ASSESSMENT CRITERIA

Level 7

In accordance with the Framework for Higher Education Qualifications, at the end of Level 7 students should be able to demonstrate: a systematic understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of their academic discipline or area of professional practice; a comprehensive understanding of techniques applicable to their own research or advanced scholarship; originality in the application of knowledge, together with a practical understanding of how established techniques of research and enquiry are used to create and interpret knowledge in the discipline; conceptual understanding that enables the student to evaluate critically current research and advanced scholarship in the discipline to evaluate methodologies and develop critiques of them and, where appropriate, to propose new hypotheses. They will be able to deal with complex issues both systematically and creatively, make sound judgements in the absence of complete data, and communicate their conclusions clearly to specialist and non-specialist audiences. They will demonstrate self-direction and originality in tackling and solving problems, and act autonomously in planning and implementing tasks at a professional or equivalent level to continue to advance their knowledge and understanding, and to develop new skills to a high level. They the qualities and transferable skills necessary for employment requiring the exercise of initiative and personal responsibility; decision-making in complex and unpredictable situations/professional environments; and the independent learning ability required for continuing professional development.

Level 7	FAIL	FAIL	MARGINAL FAIL	SATISFACTORY (Pass)	GOOD to VERY GOOD (Merit)	EXCELLENT (Distinction)	EXCEPTIONAL (Distinction)
Category	0-29%	30-44%	45-49%	50-59%	60-69%	70-84%	85-100%
Engagement with literature (including current research, referencing, academic conventions and academic honesty)	Little or no evidence of reading and/or reliance on inappropriate sources. Views and findings mostly unsupported and non-authoritative. Referencing conventions used incoherently or largely absent.	Poor engagement with essential reading. No evidence of wider reading. Reliance on inappropriate sources, and/or indiscriminate use of sources. Heavily reliant on information gained through class contact. Inconsistent and weak use of referencing.	Engagement with a very limited range of relevant and credible sources. Some omissions and minor errors. Referencing conventions evident though not always applied accurately or consistently.	Engagement with an appropriate range of research-informed literature, including sources retrieved independently. Some over-reliance on texts. Referencing may show minor inaccuracies or inconsistencies.	Engagement with a wide range of research-informed literature, including sources retrieved independently. Selection of relevant and credible sources. Very good use of referencing, with no/very few inaccuracies or inconsistencies.	Engagement with an extensive range of relevant and credible literature, informed by the latest research. Consistently accurate application of referencing.	Exceptional engagement with an extensive range of relevant and credible literature, informed by the latest research. High-level referencing skills consistently and professionally applied.
Knowledge and understanding (A systematic,	Major gaps in knowledge and understanding of the subject	Gaps in knowledge, with only superficial systematic	Limited knowledge and systematic understanding of	Knowledge is accurate and reasonably detailed. A	Knowledge has a well-defined focus, which is reasonably	Excellent mastery of a complex and specialised area	Exceptional mastery of a complex and specialised area

Level 7	FAIL	FAIL	MARGINAL FAIL	SATISFACTORY (Pass)	GOOD to VERY GOOD (Merit)	EXCELLENT (Distinction)	EXCEPTIONAL (Distinction)
Category	0-29%	30-44%	45-49%	50-59%	60-69%	70-84%	85-100%
conceptual understanding of knowledge, and a critical awareness of current problems and/or new insights, much of which is at, or informed by, the forefront of the discipline; a comprehensive understanding of techniques applicable to their own research)	matter is not systematic.
