

Shahanara begum 1704820

8/25

use upper case letters
for the start of names

This term we made a website for our business proposal through weebly website .we are in a group of four myself ,shapla begum, salema khatun,and marjana khatun. Our business name is Paradise hall, it can be used for all kind of party such as birthday, Baby shower, charity event or many more but mainly for wedding. we have three different rooms so people can use it for different occasions. Also we can provide food for all kind of events .we have our own chefs and waters .But people can bring their own foods if they wants to the only problem is we do not have our own car pack.

Main body

The aim of creating a website is that we can advertise our business through online so people can connect to our business easily .we can also distribute leaflet door to door, face to face or attending linked in events and charity events.so we can get more people's to use our products and our events hall. We also offer people that they can view our hall before they booked in. we designed our picture's together before we upload our picture's so people can see it online .we put the price for all our room's. so that's people can use our hall for example if people wants to booked for different time different room the price is going to be different.

Conclusion

We all contribute to make our service and product better and we all designed our website together to make our business successful.

What was your role in the building
of the website?

The is somewhat under the word count. You needed to go into considerably more depth, and highlight which elements of the website will support increased sales. You should also have discussed your groups reasons for choosing this particular type of business. Take care to ensure that you follow the questions requirements carefully and include all necessary detail.
