EMPL4013: Pathway Project 1

2017

MODULE CODE: EMPL4013

TITLE: Pathway Project 1

LEVEL: 4

CREDITS: 20

AIM(S)

- To develop students awareness of employability in a local and global context.

LEARNING OUTCOMES

By the end of this module students should be able to:

1. identify a personal skill-set and knowledge relevant to the project;
2. demonstrate awareness of sustainability and global citizenship within the context of the project;
3. demonstrate a range of employment skills in the completion of a group project;
4. organise their knowledge and learning through use of a range of information resources, and present their work at the appropriate level.

CONTENT

- Over the course of the module students will participate in an integrated or simulated workplace project demanding a range of employment skills. The project will be established with due regard to policies and practical application related to sustainable development and global citizenship.
- Students will consider their working practices, individual skill-set and knowledge in relation to a particular employment project incorporating environmental, economic, social, language and cultural issues in a working environment

Students will extend their skills in collaborative working, communication, planning and problem solving over the course of the project.
