Threats, Vuln and Attacks discussed adequately. Could have used points/ bulleting to describe each sub-headings rather than a long paragraph. No discussion on .rekt file format. Could have detailed on its type of file, operations, any recent similar attacks, recovery options etc. Guidelines written. Avoid using long paragraph. Here, it is just a step of action needed and not reasoning. Reasons on why the guideline is required needs to be addressed in Intro, Security breaches, Attacks, Vuln,	9
