- Module Title: Digital
Skills and Research
Methods
- Lecturer: Rebecca
Kavanagh

INTRODUCTION

In this presentation we will be delivering a research proposal.

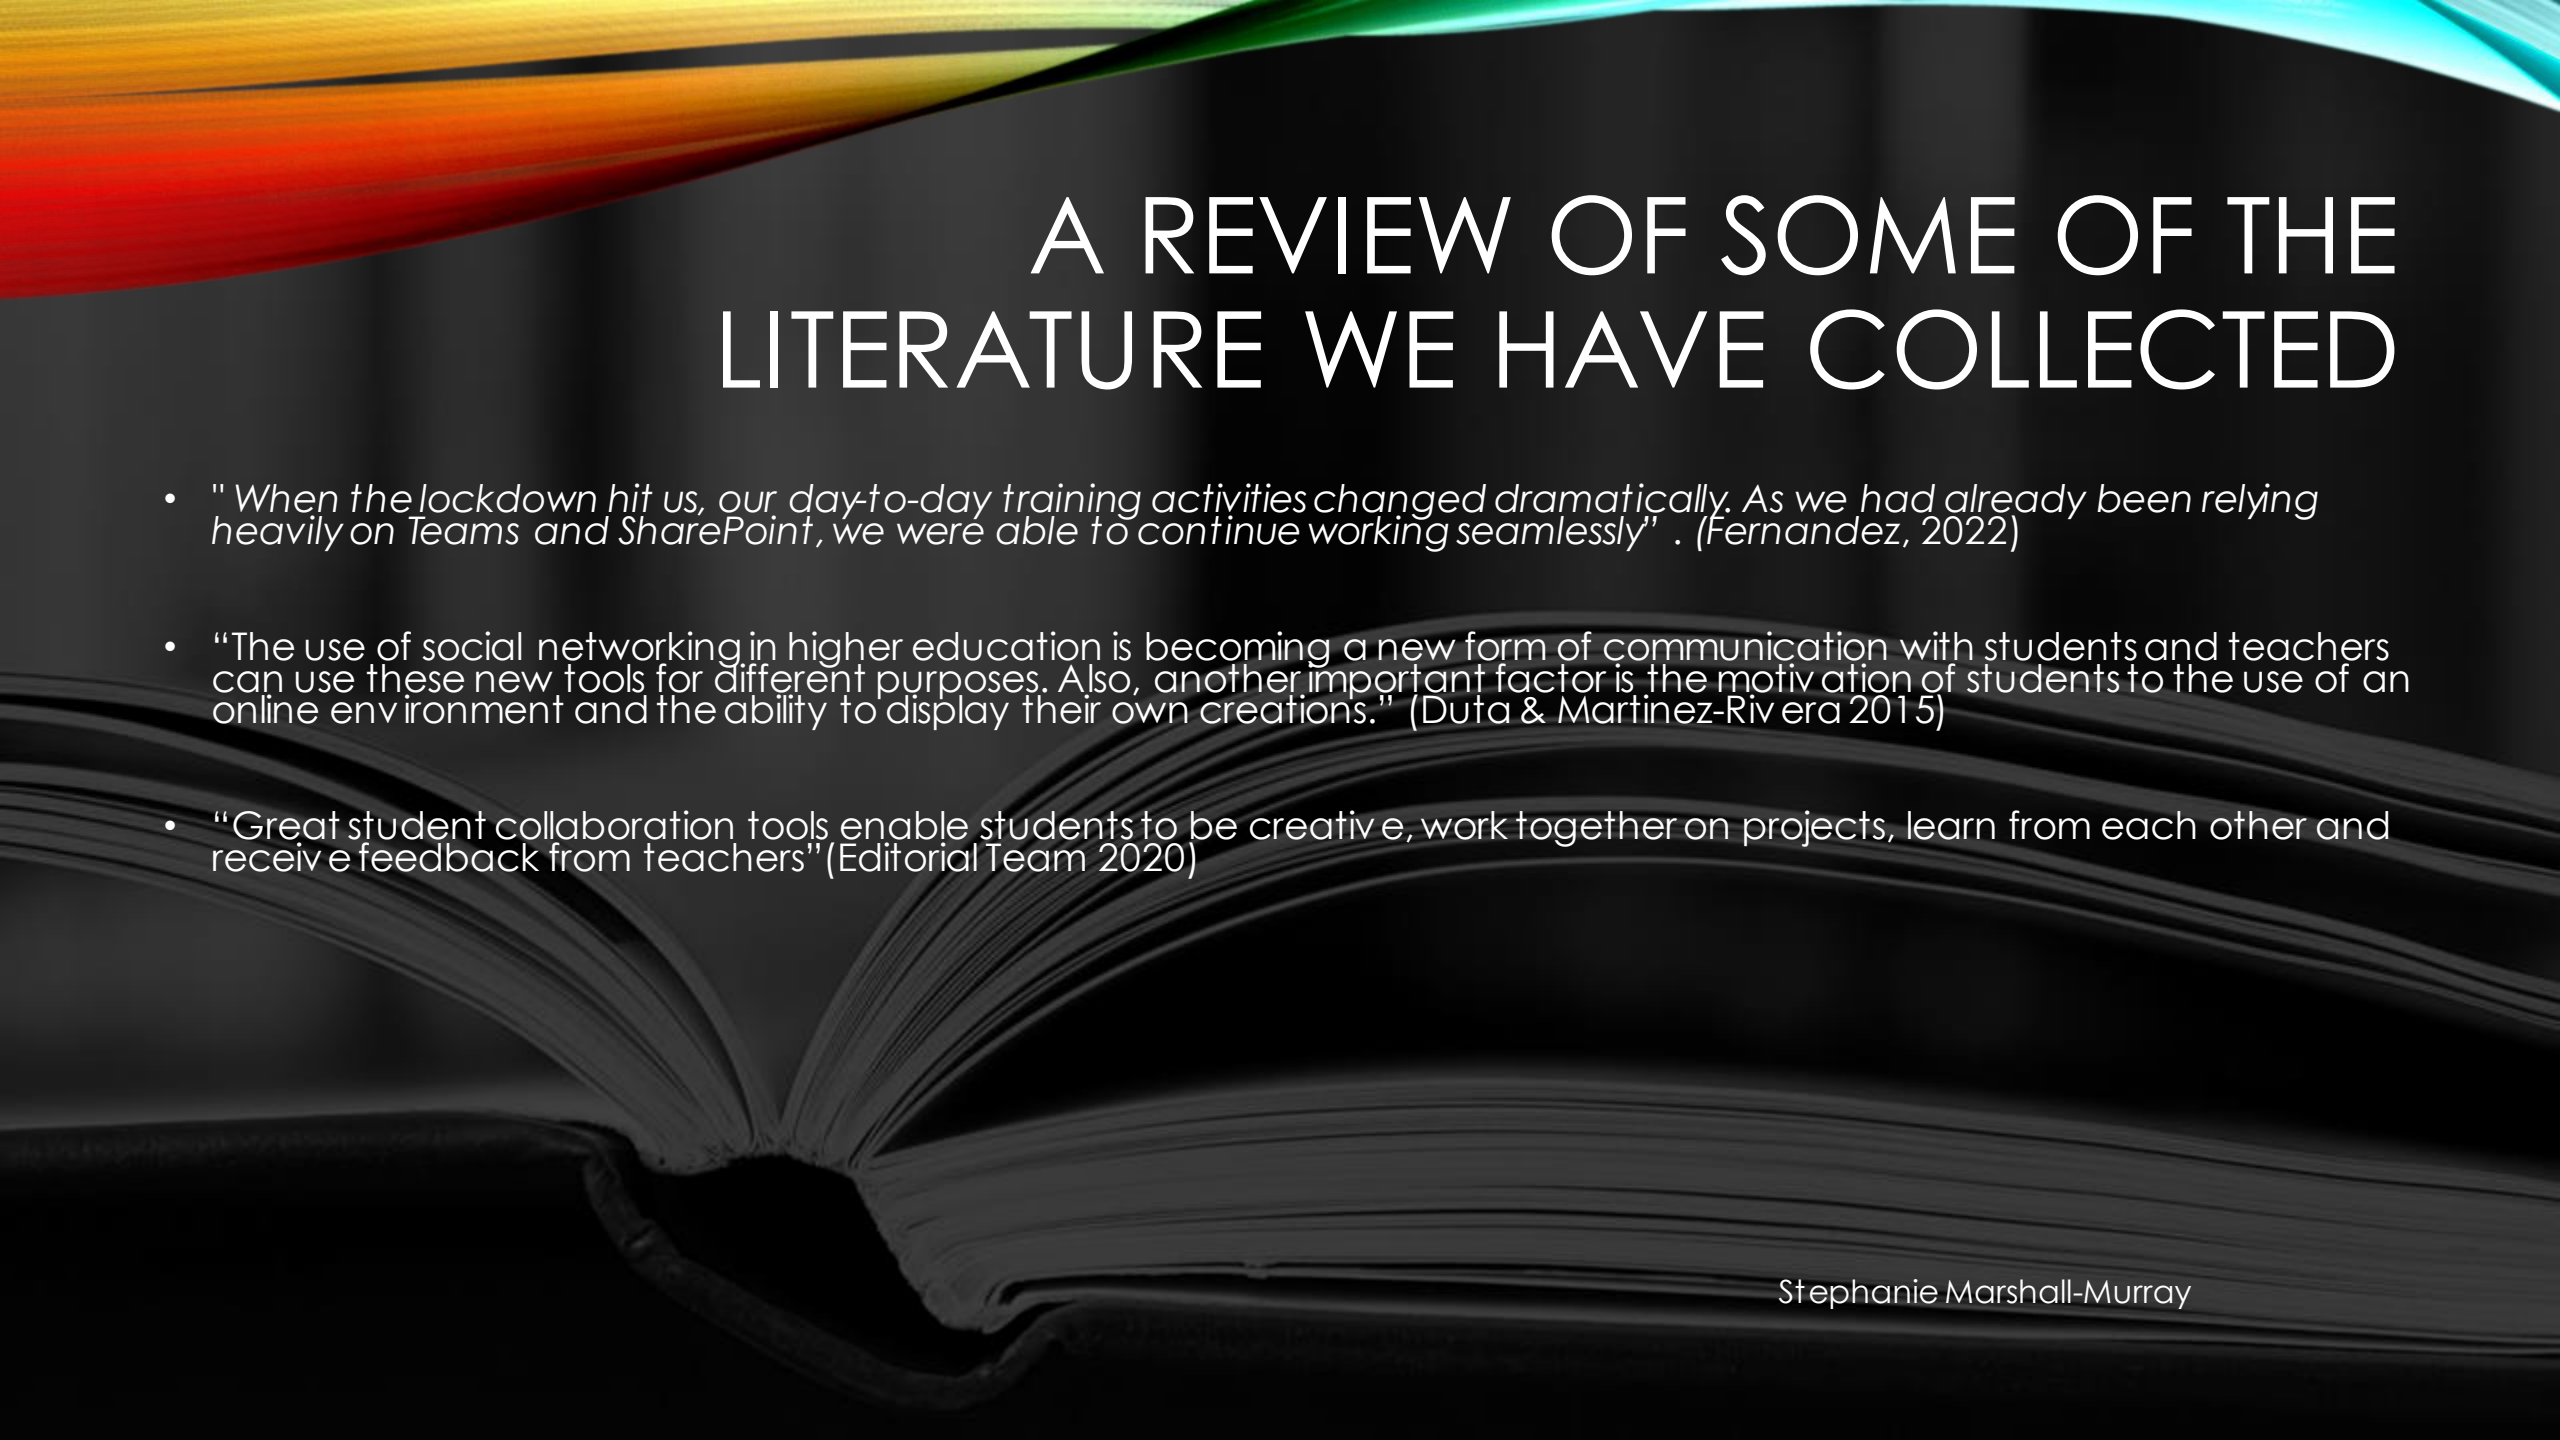

We have chosen to research ***“Which digital tool is most used by students at UWTSD to collaborate together”?***

We have worked together as a group and conducted research from a wide range of sources including articles, journals, books, websites and questionnaires to discuss how students use technology to collaborate at UWTSD.

Umbereen Naeem

A REVIEW OF SOME OF THE LITERATURE WE HAVE COLLECTED

- *"When the lockdown hit us, our day-to-day training activities changed dramatically. As we had already been relying heavily on Teams and SharePoint, we were able to continue working seamlessly" . (Fernandez, 2022)*
- "The use of social networking in higher education is becoming a new form of communication with students and teachers can use these new tools for different purposes. Also, another important factor is the motivation of students to the use of an online environment and the ability to display their own creations." (Duta & Martinez-Rivera 2015)
- "Great student collaboration tools enable students to be creative, work together on projects, learn from each other and receive feedback from teachers" (Editorial Team 2020)

PROPOSED METHOD

IN OUR RESEARCH PROPOSAL WE WILL BE RESEARCHING WHAT DIGITAL TOOL IS MOST USED TO COLLABORATE AT UWTSD

THIS WILL ENABLE US TO GAIN A CLEAR UNDERSTANDING OF WHAT TOOLS THE STUDENTS ARE USING AND WHY.

WE WILL BE CARRYING OUT THIS RESEARCH BY CREATING A QUESTIONNAIRE ON MS FORMS TO COLLATE INFORMATION FROM THE STUDENTS AT UWTSD SO WE CAN IDENTIFY WHICH TOOL IS MOST USED

Umbereen Naeem

RESEARCH QUESTIONS

1. I consent to take part in this questionnaire

2. When collaborating with my peers at UWTSD do you use one digital tool more than others?

3. Which of the following applications do you use to collaborate with others? Rank from 1-7 with 1 being most frequently used:

MS Teams, OneDrive, MS Word, WhatsApp, Moodle, MS Powerpoint, MS Outlook

4. Select how much you agree or disagree with the statements below:

I do not use any digital tools to collaborate

I use a range of digital skills to collaborate with my peers

5. Select from the options below:

What age range do you come under?

Joyrul Haque

ETHICAL CONSIDERATIONS

As a group we will ensure we are conducting ethical research by:

- Ensuring we take into consideration confidentiality of data
- Respecting other people's decisions
- We offer informed consent of those taking part
- Upholding data protection laws
- Ensuring the safety of our group

Stephanie Marshall-Murray

HYPOTHESIS

- Our hypothesis is that MS Teams will be the digital tool that is most used by students at UWTSD.
