INTRODUCTION

This handbook provides you with information about your Programme of Study for the academic year 2021/22. Module descriptors are presented in the accompanying Module Directory document.

Because of the ongoing Covid-19 situation, the University has made a number of changes for the 2021/22 academic year, e.g. in relation to how you can access facilities on our campuses, and how your programme will be delivered.

Access to the University's physical facilities will be led by Government and Public Health advice. Essential updates can be found here (<https://uwtsd.ac.uk/coronavirus/>) and on the [Student Hwb](#). Please also make sure that you read the Student Bulletin for essential updates as a change in status may affect how your programme is delivered.

As a result of these circumstances, most programmes will be delivered through in-person and blended online delivery. This approach will work to ensure that if you are shielding or self-isolating you will still be able to access your studies. If you have any specific needs arising from the current circumstances, we ask that you make Student Services and your programme team aware so that we can work to support you.

The University has made every effort to make the information as full and as accurate as possible, but you should note that minor changes in the organisation of modules between the planning stage and the actual teaching are inevitable. We shall try to keep any such changes to a minimum, and you will receive advance warning in the event of any alteration.

FEEDBACK

Feedback on your programme of study and modules is welcome and important and will help us to improve and enhance your learning experience. You can give feedback in a number of ways: through the academic representatives for your programme of study, through module evaluation questionnaires, through informal meetings with your academic support tutor, teaching staff, or Programme Manager, through focus groups to gain feedback from students on particular issues, or through the Students' Union. If there are issues, then it is important that you share these with us so that we can address them. We would also be grateful if you would let us know about any changes that you think might be helpful if introduced into future handbooks. Your opinion is valued.

PROGRAMMES OF STUDY AND PROGRAMME MANAGERS

This handbook covers the following Programmes of Study. The name and contact details of the Programme Managers are also listed below.

Programme of Study	Programme Manager	Tel. No.	E-mail
BA (Hons) Architectural & Stained Glass	Cath Brown	(01792) 481179 Ext 4179	catherine.brown@uwtsd.ac.uk
BA (Hons) Product Design	Matt Archer	(01792) 481000 Ext 4521	matthew.archer@uwtsd.ac.uk
BSc (Hons) Product Design and Technology	Matt Archer	(01792) 481000 Ext 4521	matthew.archer@uwtsd.ac.uk

SUPPORT DURING YOUR STUDIES

A member of staff will be identified at the beginning of the academic year to act as a point of first contact for support issues. Further support can also be accessed through the [Student Services](#) department.

EXTERNAL EXAMINERS

All taught Programmes of Study which lead to an award of the University have at least one External Examiner. The principal purposes of the University's external examiner system are to ensure that:

- the standard of each award is maintained at the appropriate level;
- the standards of student performance are comparable with standards on similar programmes or subjects in other UK institutions with which they are familiar;
- the processes for assessment and the determination of awards are sound and fairly conducted.

Students may request a copy of the previous year's External Examiner's Report for their programme of study by contacting the Programme Manager.

The current External Examiners for the Programmes of Study are:

Programme of Study	External Examiner for 2021/22 (forename/surname)	External Examiner for 2020/21 (if different to current)
BA (Hons) Architectural & Stained Glass	Dr Cate Watkinson	N/A
BA (Hons) Product Design	Richard Evans	N/A
BSc (Hons) Product Design and Technology	Richard Evans	N/A

Please note that students are not permitted to make direct contact with the External Examiners without permission and to do so may be considered a disciplinary offence.

ACADEMIC YEAR 2021/22

The academic year 2021/22 will be divided up as follows:

Induction	20/09/21 - 24/09/21
Semester 1:	20/09/21 - 21/01/22
Exam Period 1:	05/01/22 - 14/01/22
Examining Boards:	31/01/22 - 11/02/22
Semester 2:	24/01/22 - 08/07/22
Exam Period 2:	04/05/22 - 18/05/22
Examining Boards:	30/05/22 - 16/06/22
Re-sit Period:	18/07/22 - 22/07/22

Please note that dates are subject to change depending upon developments relating to the Coronavirus/Covid-19 pandemic.

INFORMATION ABOUT YOU AND YOUR PROGRAMME OF STUDY

Information about you and your programme of study is held by the University on a central Student Record System managed by the University Registry. It is essential that the University Registry has an accurate record of your personal details at all times. It is equally important to ensure that you are enrolled on the correct Programme of Study and on the correct modules and that you read and agree to the Enrolment Agreement.

My Student Record / MyTSD

You can view your personal details on [MyTSD](#) and make requests to amend data when your circumstances change. It is important to keep your personal details up to date. You can use MyTSD to:

- enrol for the new academic year
- generate a 'Confirmation of enrolment' letter
- generate a council tax exemption letter and/or bank letter
- view enrolment and module registration details
- amend your address
- check your financial information (e.g. fees due)
- submit a programme change request
- apply for 'Extenuating Circumstances'
- check your module results and examining board decision
- request to withdraw from your studies

Failure to keep your personal details up to date can result in a range of problems including:

- delays in obtaining your student loan;
- failure to contact you in an emergency;
- not being able to borrow materials from the Library and Learning Resources; and
- not being able to use the Information Technology services;
- potential non-compliance with visa regulations.

Please take time to check your enrolment details on MyTSD.

DISCLOSURE AND BARRING SERVICE (DBS) – ENHANCED

If your programme involves you coming into contact with children or vulnerable adults, you will be required to undertake a DBS check (Enhanced). Further details will be provided by the University Registry or Programme Manager.

As part of each programme's procedures relating to DBS, continuing students will normally be required to inform their Programme Manager immediately of any change to their criminal convictions' status.

You will also be asked to complete a formal self-declaration during the enrolment period at the beginning of the academic year, which confirms your criminal conviction status.

MODULAR TERMINOLOGY

Level (of Study):

A level is assigned to each module to define the standard of its academic demand in line with the National Qualifications Framework which incorporates both Further Education and Higher Education.

The level is not necessarily synonymous with a year, though very often Level 6 will be the first year of a Programme of Study, Level 6 will be the second year, and Level 6 will be the third year. The basic characteristics of the relevant levels of study are outlined by the Welsh Assembly government and available on their website:
<https://gov.wales/sites/default/files/publications/2018-02/level-descriptors.pdf>

ASSESSMENT

At the start of each module, tutors will provide on Moodle full details of the means by which you will be assessed in that module. This will include a full assessment brief and guidelines on the criteria that will be used for marking your work as well as clear information about when the assessments are due and the turn-around feedback time for the assessments. It will also detail how you will be able to discuss the feedback on your work and your performance and what to do if you have any questions.

All assessed written coursework needs to be submitted in electronic copy via Turnitin; alternative instructions will be provided by the Programme Manager for any forms of coursework that cannot be submitted via Turnitin.

The University offers programmes in both English and Welsh. The normal expectation is that you will be assessed in the same language in which the programme or modules are delivered. If you have been taught in English and wish to be assessed in Welsh, or vice versa, you should consult your Programme Manager about the options available to you.

You will receive confirmation of your assessment marks at the end of each year. Any marks released prior to formal approval by the Progression / Award Examining Board are provisional.

(1) Extenuating Circumstances

If you believe that there are extenuating circumstances which may have adversely affected your ability to complete coursework or examinations, you should follow the University's procedures for Extenuating Circumstances for Taught Provision, which can be found on the University's website and forms part of the *Mitigating Circumstances Policy*:

<http://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>

(2) Additional needs in terms of assessment

If you have any additional needs in terms of assessment, it is your responsibility to liaise with Student Services regarding those needs at the start of the academic year, so that a Statement of Compensatory Measures can be drafted in line with the University's procedures for assessment of students with additional needs.

<http://www.uwtsd.ac.uk/services-for-disabled-students/>

(3) Academic Appeals

Information about how to appeal is provided in the 'Academic Appeal Procedure' which forms part of the *Academic Appeal Policy* associated with Chapter 12 of the Academic Quality Handbook, and in supporting documentation published on the Academic Office section on the University's website:

<http://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>

Additional advice is available from the Students' Union. It is very important that you note carefully the grounds on which appeals may be made and submit your appeal on the appropriate form because incomplete or ineligible appeals cannot be processed.

(4) Assessment Regulations

The rules and regulations that govern the assessment of your Programme of Study are available in Chapters 6 and 7 of the University's Academic Quality Handbook, a copy of which is available on the Academic Office section of the website:

<http://www.uwtsd.ac.uk/academic-office/academic-quality-handbook/>

(5) Responsibilities of students in relation to the assessment process

You are responsible for ensuring that:

- i) You are correctly enrolled on your programme of study (including re-enrolment for each academic year after initial enrolment).
- ii) You read and understand the information provided about how you will be assessed, how your final award will be determined, and the action to take in the event that you experience difficulties relating to assessment.
- iii) You attempt every assessment component of a module.
- iv) You attend examinations and other assessment events, including re-examination and re-assessment events, as required; and that you are available to attend oral examinations if required to do so within the published dates of terms or semesters, or other date notified to you in advance.
- v) You submit work for assessment as required and in accordance with the required format and deadline.
- vi) You inform your Programme Manager or Student Services of any disability or long-term impairment which might require special provisions for assessment.
- vii) You familiarise yourself with the University's definition of academic misconduct and undertake assessments in a manner that does not attempt to gain unfair advantage.
- viii) You follow the prescribed procedures in the event that you experience extenuating circumstances or wish to appeal against the decision of an Examining Board.
- ix) You keep a copy of work presented for assessment wherever feasible.
- x) You make your work available for sampling for external examining purposes .

VIRTUAL LEARNING ENVIRONMENT (VLE)

Moodle is the University's Virtual Learning Environment (VLE). The VLE is used to support learning and teaching. It can be accessed by **enrolled** students from anywhere in the world using the internet and a web browser.

Some of Moodle's features allow students to:

- Access course materials
- Facilitate communication between students and tutors - this may also take place via Microsoft Teams
- Support group tasks
- Take online assessments with automatic marking and feedback facilities

Moodle can be used for administration tasks such as:

- Displaying announcements e.g. lecture venue changed
- Submission of assignments electronically
- Administration of online surveys, such as module questionnaires

How to Access:

You can access Moodle in 3 different ways:

1. From Hwb - Access your Hwb dashboard either by logging into a campus PC and opening Internet Explorer, or accessing <https://hwb.uwtsd.ac.uk> from any browser on an internet-connected device. Click on the Moodle tile.
2. From the University Website - navigate to <http://uwtsd.ac.uk> and select Quick Links (top left side of screen) and then Moodle.
3. URL Input - Open any browser on an internet-connected device and navigate to <http://moodle.uwtsd.ac.uk>

If you are already signed into the Hwb or Office 365 you should be automatically signed into Moodle when you connect, if not log in using your Network username and password which are the same as used to access a campus PC.

If you are missing courses/modules in the **My Courses** block please contact your **lecturers** to ask if they use Moodle. Please note it can take 24hrs for enrolment data to feed into Moodle. If you have problems finding resources (timetables, lecture notes, assignment briefs etc.) please contact the **lecturer** that delivers the course/module.

For any technical issues or error messages contact the **IT Service Desk** via:

Web: <https://webhelp.uwtsd.ac.uk>

Tel: 0300 500 5055

Or email: ITServiceDesk@uwtsd.ac.uk

In any correspondence please include your name and username (your student number) together with details of your issue.

Further information on using online and digital resources can be found at <https://digitallearning.uwtsd.ac.uk/>

ASSESSMENT FEEDBACK VIA TURNITIN

For feedback provided through Turnitin, there are two areas to get your feedback: written feedback, and the marking rubric.

Written feedback will comment on the overall work.

The marking rubric will focus on how the piece of work meets the criteria listed in the relevant rubric.

The marking rubric does not give a mathematically calculated result based on the sum of individual components but is used holistically to help determine the mark.

Written Feedback and the Marking Rubric can be found by clicking the buttons as shown when you view your submitted assignment in Turnitin.

PROGRAMMES OF STUDY

(1) BA (Hons) Architectural and Stained Glass

General Programme Aims:

1. To encourage individual development and innovative approaches to the design and realization of design, craft, architecture and product.
2. To develop comprehensive knowledge and practical skills in the design and manufacture of specialist materials.
3. To develop analytical, evaluative and communicative abilities pertinent to the development of design when working as individuals or as members of a team.
4. To develop a critical awareness of the social, legal and ethical framework within which a design professional will operate, both individually and as a member of a team.
5. To enable students to become independent learners.
6. To promote the development of a quality design appropriate to specialist field.
7. To develop the student's personal identity through personal research and investigation, leading to innovative and original designs and artefacts.
8. To enable the student to engage with a client brief that requires the development of an original design solution that exhibits appropriate contextualisation and externality.

Programme Learning Outcomes

Upon successful completion of their Honours level studies graduates will be able to demonstrate the following additional outcomes:

- Generate original design proposals and artefacts that reflect the application of the student's own research and individuality in their personal practice.
- Demonstrate understanding of commercial practice and prepare a professional portfolio to present themselves and their work to potential clients or collaborators.
- Research, integrate and critically evaluate information from a variety of sources.
- Critically analyse and evaluate design approaches and manufacturing methods for the application of specialist materials.
- Present design solutions supported by critical and developmental evidence together with their physical realisation for an externally defined brief.

Upon completing the programme students are expected to have demonstrated the following:

Knowledge and Understanding

1. An in-depth knowledge of the design process. The ability to generate ideas (and apply design processes) for effective and creative design solutions that satisfy a set and/or self-initiated brief either independently and/or collaboratively.
2. Detailed knowledge of traditional, current and emerging materials, techniques and processes and ability to select and develop design solutions.
3. Develop ideas through to outcomes targeting innovation, high quality finish, desired aesthetic qualities, resolved application and function.

4. Extensive knowledge of the contemporary context of design and the significance of the work of other practitioners in their discipline.
5. An understanding of the issues which arise from the designer's relationship with audiences, clients, markets, users, consumers, and/or participants.
6. A broad critical and contextual awareness of socio-cultural, economic, political and environmental issues and their impact on design practice.
7. An awareness of the implications and potential for their discipline(s) presented by the key developments in current and emerging media and technologies, and in interdisciplinary approaches to contemporary practice in design.
8. Demonstrate an awareness of sustainable practice in terms of self-learning and transferrable skills.
9. Demonstrate ability and skills in observation, investigation, enquiry, visualization and/or making.

The following learning outcomes for each level of exit have been informed by the relevant QAA benchmarking statements:

Knowledge and understanding (KU)

KU1: Demonstrate knowledge of the underlying concepts and principles associated with creative ideation processes and construction.

KU2: Show knowledge of materials and processes and the environmental impact of their use within the Design and Crafts Industry.

KU3: Demonstrate an ability to present, evaluate and interpret research in order to develop theories and concepts related to Design.

KU4: Demonstrate well established concepts associated with Design and Crafts.

KU5: Demonstrate detailed knowledge of traditional, current and emerging materials, techniques and processes and ability to select and develop design solutions.

KU6: Have a broad critical and contextual awareness of socio-cultural, economic, political and environmental issues and their impact on Design and Crafts.

KU7: Demonstrate coherent and detailed knowledge of craft, materials and construction within chosen field of study.

KU8: Show specialist and extended knowledge and enquiry used to create and fabricate.

KU9: Justify information, ideas, problems and solutions professionally to both specialist and non-specialist audiences.

Cognitive (thinking) skills (CS)

CS1: Demonstrate the ability to research, record and evaluate conceptual information.

CS2: Demonstrate enquiry into design and crafts and distinguish areas for future developments and investigation showing critical awareness.

CS3: Articulate ideas and information comprehensively in visual, oral and written forms.

CS4: Employ both convergent and divergent thinking in the processes of observation, investigation, speculative enquiry, visualisation and / or making.

CS5: Apply ethical principles and personal values to their work.

CS6: Communicate and present ideas and work to audiences in a range of situations with an awareness of the relationship with clients, markets, environments, users, consumers, participants, co-workers and co-creators.

CS7: Demonstrate the ability to make decisions in complex and unpredictable contexts.

CS8: Identify and produce a body of work that defines their position as a designer / maker and considers future working practice within the creative industries.

CS9: Demonstrate the ability to analyse information and experiences, formulate independent judgement, and articulate reasoned arguments through reflection, review and evaluation.

Practical skills (PS)

PS1: Demonstrate evidence of preparation of research, observation, enquiry, visualisation, designing and making.

PS2: Show evidence of experimentation with a range of traditional and digital design tools used in design practice.

PS3: Communicate, organise and present ideas and information in visual, oral and written form.

PS4: Demonstrate proficiency in the use of a range of established techniques to develop and refine ideas and making skills.

PS5: Demonstrate a range of practical skills, using processes and equipment creatively and professionally applied to given situations and scenarios.

PS6: Communicate and present concepts, proposals, solutions or arguments independently and / or collaboratively in response to a set brief or as a self-initiated activity.

PS7: Demonstrate a comprehensive understanding of techniques applicable to own research and practice through skilled fabrication.

PS8: Demonstrate an established and refined skill level in making, showing sound technical understanding.

PS9: Show an appreciation of the uncertainty, ambiguity and limits of knowledge and a commitment to managing own learning.

Key skills (KS)

KS1: Demonstrate some of the qualities and transferable skills necessary for employment requiring some personal responsibility.

KS2: Demonstrate development of reflective and individual practice that will lead on to professional and personal growth.

KS3: Demonstrate the ability to interact effectively with others, for example through collaboration, collective endeavour and negotiation.

KS4: Demonstrate the ability to plan and prepare for professional practice, and understand the skills and attributes required to communicate and collaborate with clients / audience.

KS5: Evidence development of sustainable and appropriate employability skills showing resourcefulness and entrepreneurship.

KS6: Recognise and use reflective practice as a tool to develop personal and professional growth.

KS7: Demonstrate the management of own learning and show organisational skills, self-management, show initiative and take personal responsibility.

KS8: Demonstrate decision making in complex and unpredictable contexts.

KS9: Demonstrate the learning ability needed to undertake appropriate further training of a professional or equivalent nature.

Level 6

All Level 6 students must normally pursue 120 credits at Level 6. The credit rating of each module is specified in the module details.

Modules

PROGRAMME STRUCTURE

Structure: Full-time Students

Module Code	Title	Module type (component pass, core, compulsory or optional)	Credits
Year 3	Level 6	Semester 1	Sept to Feb
M6X01787	Advanced Creative Enquiry	Compulsory	20
ADDA6006/C	Independent Project/ Prosiect Annibynnol	Compulsory	40
Year 2	Level 6	Semester 2	Feb to May
ADDA6003	Individual Major Project	Compulsory	60
ADDA6004	Independent Professional Placement	Optional	60
CAI-6000 M6X02302	International Independent Study Module	Optional	60

Structure: Part-time Students

Module Code	Module Title	Module type (Core, Compulsory, Optional)	Credits
Year 5	Level 6	Semester 1&2	Sept. to Feb.
M6X01787	Advanced Creative Enquiry	Compulsory	20
ADDA6006/C	Independent Project/ Prosiect Annibynnol	Compulsory	40
Year 6	Level 6	Semester 1&2	Sept. to Feb.
ADDA6003	Individual Major Project	Compulsory	60
ADDA6004	Independent Professional Placement	Optional	60
CAI-6000 M6X02302	International Independent Study Module	Optional	60

(2) BA (Hons) Product Design

General Programme Aims:

1. To encourage individual development and innovative approaches to the design and realization of design, craft, architecture and product.
2. To develop comprehensive knowledge and practical skills in the design and manufacture of specialist materials.
3. To develop analytical, evaluative and communicative abilities pertinent to the development of design when working as individuals or as members of a team.
4. To develop a critical awareness of the social, legal and ethical framework within which a design professional will operate, both individually and as a member of a team.
5. To enable students to become independent learners.
6. To promote the development of a quality design appropriate to specialist field.
7. To develop the student's personal identity through personal research and investigation, leading to innovative and original designs and artefacts.
8. To enable the student to engage with a client brief that requires the development of an original design solution that exhibits appropriate contextualisation and externality.

Programme Learning Outcomes

Upon successful completion of their Honours level studies graduates will be able to demonstrate the following additional outcomes:

- Generate original design proposals and artefacts that reflect the application of the student's own research and individuality in their personal practice.
- Demonstrate understanding of commercial practice and prepare a professional portfolio to present themselves and their work to potential clients or collaborators.
- Research, integrate and critically evaluate information from a variety of sources.
- Critically analyse and evaluate design approaches and manufacturing methods for the application of specialist materials.
- Present design solutions supported by critical and developmental evidence together with their physical realisation for an externally defined brief.

Upon completing the programme students are expected to have demonstrated the following:

Knowledge and Understanding

1. An in-depth knowledge of the design process. The ability to generate ideas (and apply design processes) for effective and creative design solutions that satisfy a set and/or self-initiated brief either independently and/or collaboratively.
2. Detailed knowledge of traditional, current and emerging materials, techniques and processes and ability to select and develop design solutions.
3. Develop ideas through to outcomes targeting innovation, high quality finish, desired aesthetic qualities, resolved application and function.
4. Extensive knowledge of the contemporary context of design and the significance of the work of other practitioners in their discipline.

5. An understanding of the issues which arise from the designer's relationship with audiences, clients, markets, users, consumers, and/or participants.
6. A broad critical and contextual awareness of socio-cultural, economic, political and environmental issues and their impact on design practice.
7. An awareness of the implications and potential for their discipline(s) presented by the key developments in current and emerging media and technologies, and in interdisciplinary approaches to contemporary practice in design.
8. Demonstrate an awareness of sustainable practice in terms of self-learning and transferrable skills.
9. Demonstrate ability and skills in observation, investigation, enquiry, visualization and/or making.

The following learning outcomes for each level of exit have been informed by the relevant QAA benchmarking statements:

Knowledge and understanding (KU)

KU1: Demonstrate knowledge of the underlying concepts and principles associated with creative ideation processes and construction.

KU2: Show knowledge of materials and processes and the environmental impact of their use within the Design and Crafts Industry.

KU3: Demonstrate an ability to present, evaluate and interpret research in order to develop theories and concepts related to Design.

KU4: Demonstrate well established concepts associated with Design and Crafts.

- Present design solutions supported by critical and developmental evidence together with their physical realisation for an externally defined brief.

Upon completing the programme students are expected to have demonstrated the following:

Knowledge and Understanding

1. An in-depth knowledge of the design process. The ability to generate ideas (and apply design processes) for effective and creative design solutions that satisfy a set and/or self-initiated brief either independently and/or collaboratively.
2. Detailed knowledge of traditional, current and emerging materials, techniques and processes and ability to select and develop design solutions.
3. Develop ideas through to outcomes targeting innovation, high quality finish, desired aesthetic qualities, resolved application and function.
4. Extensive knowledge of the contemporary context of design and the significance of the work of other practitioners in their discipline.

5. An understanding of the issues which arise from the designer's relationship with audiences, clients, markets, users, consumers, and/or participants.
6. A broad critical and contextual awareness of socio-cultural, economic, political and environmental issues and their impact on design practice.
7. An awareness of the implications and potential for their discipline(s) presented by the key developments in current and emerging media and technologies, and in interdisciplinary approaches to contemporary practice in design.
8. Demonstrate an awareness of sustainable practice in terms of self-learning and transferrable skills.
9. Demonstrate ability and skills in observation, investigation, enquiry, visualization and/or making.

The following learning outcomes for each level of exit have been informed by the relevant QAA benchmarking statements:

Knowledge and understanding (KU)

KU1: Demonstrate knowledge of the underlying concepts and principles associated with creative ideation processes and construction.

KU2: Show knowledge of materials and processes and the environmental impact of their use within the Design and Crafts Industry.

KU3: Demonstrate an ability to present, evaluate and interpret research in order to develop theories and concepts related to Design.

KU4: Demonstrate well established concepts associated with Design and Crafts.

KU5: Demonstrate detailed knowledge of traditional, current and emerging materials, techniques and processes and ability to select and develop design solutions.

KU6: Have a broad critical and contextual awareness of socio-cultural, economic, political and environmental issues and their impact on Design and Crafts.

KU7: Demonstrate coherent and detailed knowledge of craft, materials and construction within chosen field of study.

KU8: Show specialist and extended knowledge and enquiry used to create and fabricate.

KU9: Justify information, ideas, problems and solutions professionally to both specialist and non-specialist audiences.

Cognitive (thinking) skills (CS)

CS1: Demonstrate the ability to research, record and evaluate conceptual information.

CS2: Demonstrate enquiry into design and crafts and distinguish areas for future developments and investigation showing critical awareness.

CS3: Articulate ideas and information comprehensively in visual, oral and written forms.

CS4: Employ both convergent and divergent thinking in the processes of observation, investigation, speculative enquiry, visualisation and / or making.

CS5: Apply ethical principles and personal values to their work.

CS6: Communicate and present ideas and work to audiences in a range of situations with an awareness of the relationship with clients, markets, environments, users, consumers, participants, co-workers and co-creators.

CS7: Demonstrate the ability to make decisions in complex and unpredictable contexts.

CS8: Identify and produce a body of work that defines their position as a designer / maker and considers future working practice within the creative industries.

CS9: Demonstrate the ability to analyse information and experiences, formulate independent judgement, and articulate reasoned arguments through reflection, review and evaluation.

Practical skills (PS)

PS1: Demonstrate evidence of preparation of research, observation, enquiry, visualisation, designing and making.

PS2: Show evidence of experimentation with a range of traditional and digital design tools used in design practice.

PS3: Communicate, organise and present ideas and information in visual, oral and written form. PS4: Demonstrate proficiency in the use of a range of established techniques to develop and refine ideas and making skills.

PS5: Demonstrate a range of practical skills, using processes and equipment creatively and professionally applied to given situations and scenarios.

PS6: Communicate and present concepts, proposals, solutions or arguments independently and / or collaboratively in response to a set brief or as a self-initiated activity.

PS7: Demonstrate a comprehensive understanding of techniques applicable to own research and practice through skilled fabrication.

PS8: Demonstrate an established and refined skill level in making, showing sound technical understanding.

PS9: Show an appreciation of the uncertainty, ambiguity and limits of knowledge and a commitment to managing own learning.

Key skills (KS)

KS1: Demonstrate some of the qualities and transferable skills necessary for employment requiring some personal responsibility.

KS2: Demonstrate development of reflective and individual practice that will lead on to professional and personal growth.

KS3: Demonstrate the ability to interact effectively with others, for example through collaboration, collective endeavour and negotiation.

KS4: Demonstrate the ability to plan and prepare for professional practice, and understand the skills and attributes required to communicate and collaborate with clients / audience.

KS5: Evidence development of sustainable and appropriate employability skills showing resourcefulness and entrepreneurship.

KS6: Recognise and use reflective practice as a tool to develop personal and professional growth.

KS7: Demonstrate the management of own learning and show organisational skills, self-management, show initiative and take personal responsibility.

KS8: Demonstrate decision making in complex and unpredictable contexts.

KS9: Demonstrate the learning ability needed to undertake appropriate further training of a professional or equivalent nature.

Level 6

All Level 6 students must normally pursue 120 credits at Level 6. The credit rating of each module is specified in the module details.

Modules

PROGRAMME STRUCTURE

Structure: Full-time Students

Module Code	Title	Module type (component pass, core, compulsory or optional)	Credits
Year 3	Level 6	Semester 1	Sept to Feb
M6X01787	Advanced Creative Enquiry	Compulsory	20
ADDA6006/C	Independent Project/ Prosiect Annibynnol	Compulsory	40
Year 3	Level 6	Semester 2	Feb to May
ADDA6003	Individual Major Project	Compulsory	60
ADDA6004	Independent Professional Placement	Optional	60
CAI-6000 M6X02302	International Independent Study Module	Optional	60

Where appropriate, the University may allow students to study modules in addition to the 120 credits studied for the level of study e.g. Welsh medium or IT modules. Students would need to discuss this with their Programme Manager.

Note that on Programmes of Study offering a large number of options, timetable constraints will inevitably mean that not all combinations of options will be possible.

Module details are correct on 1 September 2021, and will not normally be changed during the year. In the unlikely event of changes having to be made to these details during the year, you will be notified in writing. Module descriptors are presented in the accompanying Module Directory document.

UNIVERSITY ATTENDANCE POLICY

Attendance is an important indicator of your engagement with and success in your studies. All students are therefore required to attend all scheduled classes and tutorials and Institutes will record individual academic attendance. It is important that:

- you familiarise yourself with the attendance policy relevant to you (see <https://www.uwtsd.ac.uk/academic-office/other-forms-and-policies/>);
- you are fully aware of procedures to follow in case of unexpected absences;
- you are aware that disciplinary action will be taken for any sustained periods of unauthorised absence.

This is particularly important for **international students with a UKVI student Visa**. Failure to adhere to the requirements and conditions of the Attendance Policy will lead to withdrawal from your programme and the University will also inform the UKVI to withdraw your student visa sponsorship.

Appeal against withdrawal due to poor attendance – Information on how to appeal against withdrawal due to poor attendance is provided on the University's website (<http://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>).

CODES OF CONDUCT

The University is committed to providing all students with a safe and inclusive learning environment where all students have the potential to succeed to the best of their ability.

The University expects all students to abide by the Student Code of Conduct (see <https://www.uwtsd.ac.uk/studentcharter/>).

The University also has Support for Study and Fitness to Practise Policies (see <https://www.uwtsd.ac.uk/academic-office/academic-quality-handbook/>).

In addition, many programmes have a professional code of conduct that you are expected to adhere to. Your Programme Manager will provide you with appropriate details.

ABOUT ACADEMIC MISCONDUCT AND PLAGIARISM

The University defines academic misconduct as ‘any act, intentional or otherwise, whereby a person may obtain for himself/herself or for another, an unpermitted advantage...’. Committing academic misconduct in assessment is one of the most serious offences in academic life, and its consequences can be severe. It undermines the integrity of scholarship, research, and of the examination and assessment process.

It is very important to understand that it is no defence to claim that academic misconduct has been committed unintentionally, accidentally, due to extenuating circumstances or a long-term impairment (irrespective of whether or not these circumstances or long-term impairment have been acknowledged by the University).

Plagiarism is one type of academic misconduct. Plagiarism is passing off, or attempting to pass off, another’s work as your own. It includes copying the words, ideas, images or research results of another **without acknowledgement**, whether those words etc. are published or unpublished. It is plagiarism, for example, to copy the work of another student, of a member of staff or a published article without crediting the author. Persons who allow their work to be plagiarised are also guilty.

It should be noted that re-submitting work that has already been submitted for a different assessment task without noting that this is the case is also regarded as plagiarism (and is called self-plagiarism) and will be treated as such.

Plagiarism is one of the worst offences in academic life, and its consequences can be severe. It undermines the integrity of scholarship, research, and of the examination and assessment process. The guidance that follows explains what is meant by plagiarism, describes the University’s regulations for dealing with it, and provides help in avoiding it.

When enrolling as a student at the University of Wales Trinity Saint David you have consented to your work being scrutinised both electronically and in person to check for cases of plagiarism. Normally, your work will be submitted electronically via Moodle.

For submissions outside of the Moodle platform, it is equally important that you reference your sources accurately. In some cases, you will be expected to submit both hard and electronic copies, which can be checked against the database of the UK Higher Education Plagiarism Detection Service. For handwritten, portfolio and process workbook submissions check with your module tutor if you are in any doubt about whether you have infringed the regulations. They are here to assist you; ensure that you take advantage of their expertise.

(1) Plagiarism: Regulations, Procedure and Penalties

Full details of the University’s procedures and penalties for dealing with issues of plagiarism can be found in Chapter 12 of the *Academic Quality Handbook* and the associated *Academic Misconduct Policy*, which can be seen on the University website or obtained from the Institute Offices.

<https://www.uwtsd.ac.uk/academic-office/academic-quality-handbook/>

(2) Avoiding Plagiarism

Coursework, dissertations, or creative work are meant to be your own original work. Obviously, you will use the work of others. Not only is this inevitable, it is expected. All scholarship builds on the work of others. The important thing to remember is always to **acknowledge your sources**. The University recognises four referencing styles: APA, Harvard, IEEE and MHRA and provides a handbook for each of these styles.

For your programme of study, you should be using **Harvard** referencing. The handbooks can be found online: <https://www.uwtsd.ac.uk/library/infoskills/referencing-handbooks/> or in print from the Library and Learning Resources. A Referencing Essentials session will be provided during the first term of your first year but as a general rule of thumb observe the following:

- *Anything that is copied or quoted from another source, including electronic sources such as the internet, must be in quotation marks and attributed to the original author. This may be in the body of the text or as a footnote, depending on which Referencing style you are asked to use.*
- *Paraphrasing or summarising the work of others involves putting their ideas into your words. This is fine, but again, acknowledge your source.*
- *Where you are generally indebted for your ideas to one or two main sources, this can be a bit trickier. If the ideas or the way they are presented come from one or two sources, make this clear. Do the same if they come from lectures. It is important not to claim originality where it does not exist but to indicate in general where the information comes from.*
- *Full citations in timed unseen examinations are obviously not expected, but you should indicate general indebtedness and always credit any quotations you have managed to remember.*

The golden rule is; **'if in doubt, provide references'** and your Referencing Handbook will provide you with specific guidance to help you to do this correctly. For support, contact your tutor or Academic Liaison Librarian. There are no penalties for asking for advice and guidance; there are severe penalties for plagiarism and failure to reference means your work could be considered to be plagiarised.

(3) Other types of Academic Misconduct

There are other types of academic misconduct, including, but not limited to producing work as a group where it is an individual task (called collusion), fabricating data or making false claims to have carried out research, using the service of an essay bank/essay mill, having an unauthorised source of information in an examination, prohibited communication during an examination. The same regulations, procedures and penalties apply to all types of academic misconduct.

LIBRARY AND LEARNING RESOURCES

Library and Learning Resources (LLR) supports the learning, teaching and research activities of staff and students across the University with library services available at Birmingham, Carmarthen, Lampeter, London and Swansea including online resources, social learning spaces, special collections and archives.

The library prioritises the purchase of e-books over print wherever possible and loan periods are regularly reviewed by the library to ensure that they are appropriate and provide equitable access to resources. It is expected that at least all Essential reading list items are available from the library. The LLR follows a Fairer Fines policy which means students are only fined on items if they are in heavy demand or requested by another library user.

The LLR provides a *Need More?* service which aims to provide a one stop shop for all learning resource needs, for example, if a book, journal or thesis is needed which is

not in the library stock then it may be purchased or borrowed from another library. Further information can be found here: <https://uwtsd.ac.uk/library/need-more/>.

Learning Spaces

As well as collections, the library provides a variety of modern and flexible learning spaces, reflecting different styles of working e.g. group study spaces and quiet areas, as well as IT facilities, wireless internet, photocopying and printing facilities and excellent customer service.

Online Library

The LLR offers a wide range of printed and electronic resources including an extensive collection of online e-journals and e-books that are available 24/7 providing access to scholarly journals, newspapers, company reports and reference material. The library catalogue searches the whole range of print and online library materials and gives access to your library account from anywhere.

InfoSkills

All students are provided with a library tour, a Basic Skills session and a Referencing Essentials session in the first few weeks at the University. Academic Liaison Librarians will help students to develop the skills required to find, use and evaluate information sources within their subject areas. Numerous sessions are offered throughout the year to help students develop their Information Skills further to support their academic success and employability. These include sessions on identifying fake news, using statistics, Copyright awareness, and managing your online identity. The LLR operates an open door policy which enables students to ask for help and advice on the information resources available throughout the academic year. Academic Liaison Librarians are welcomed to Staff / Student Committees, and also attend other relevant Institute meetings where invited, including the Institute Board. For further information on InfoSkills provision go to: <https://www.uwtsd.ac.uk/library/infoskills/>

Special Collections and Archives

The Library is also home to the Special Collections of UWTSD, including the University's oldest printed books, manuscripts and archives. The Special Collections include over 35,000 printed works, 8 medieval manuscripts, around 100 post medieval manuscripts, and 69 incunables. Material from the Archives includes the institutional archive of St David's College, later The University of Wales, Lampeter, and Trinity College Carmarthen, both constituent members of the University of Wales Trinity Saint David. Students are encouraged to use these wonderful resources as part of their studies, regardless of discipline. Visits and workshops are often arranged within the purpose-built reading rooms in the Lampeter campus library and there is a regular programme of exhibitions across the campuses and online.

For recent service developments, updates and contact information please visit the University Library website at <http://www.uwtsd.ac.uk/library/>. The latest updates on Covid related impact to services during 21/22 can be found here <https://uwtsd.ac.uk/library/help-and-support/covid-19-services/>. Please also follow the Library and Learning Resources on Facebook, Instagram or Twitter for up-to-date news, service developments and information on new services and resources: @UWTSDLib

STUDENT SERVICES

A professional support service providing high quality information, advice, guidance, practical and emotional support to enable all students to reach their full potential.

Support available includes the Careers Service, Financial Support, Learning Support, Counselling Service and support for students from a care background. For further details see <http://www.uwtsd.ac.uk/student-services/>.

STUDY SKILLS

All students have access to study skills support to assist them in their studies. Details of provision are available from the Student Services offices on each campus and at <http://www.uwtsd.ac.uk/study-skills/>.

Topics covered include:

Developing effective study strategies

Planning and writing assignments

Preparing presentations

Planning for seminars

Preparing for exams

Drop-in study skills sessions and 1:1 appointments are available online (and in person where possible) – no appointment necessary. Please see the Student Services study skills webpages for further details: <http://www.uwtsd.ac.uk/study-skills/>.

COMPLAINTS

You have a right to make a complaint about any specific concern about the provision of your Programme of Study or a related academic service. Full details of the complaints process can be found in the *Student Complaint Policy* associated with Chapter 12 of the Academic Quality Handbook and in supporting documentation published on the Academic Office section on the University's website:

<http://www.uwtsd.ac.uk/academic-office/procedures-for-academic-appeals-complaints-and-other-student-cases/>
