

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Considering the amount of time you have had on this assessment. I was expecting a more "polished" version of the ideas you have presented. Functionality is limited and is showing no demonstration of skills learned from the web module last year. You need to be mindful of the rubric and if it needs clarification - you should have sorted it out. It just feels so "last minute" and generally no excuse (considering this is level 5)	100	34
1. Engagement with Literature Skills		
N/A	0	0
2. Knowledge and Understanding Skills		
There are limited skills in relation to your understanding of JS and how to implement them within this website. Form validation needs a range of validation checks. Also, elements of JS have no comments	15	7
3. Cognitive and Intellectual Skills		
Considering the range of cited elements, your approach to developing this solution is somewhat valid, but there is a distinct lack of JS/jQuery functions that could be considered complex (considering this is L5)	15	7
4. Practical Application Skills		
A poor implementation of a website that demonstrates your JS Skills. Also, rubric does state that you have to use bootstrap (or similar) for presentation purposes and has not been implemented. As mentioned, considering the amount of time you have had with this website, I was hoping for a more polished effort - however, I do like the interactive map	70	20
5. Transferable Skills for Life and Professional Practice		
N/A	0	0

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)
