

Climate change

“Climate change is no longer some far-off problem; it is happening here, it is happening now.”

Barack Obama on Climate Change
President of the United States of America

(World economic forum, 2015)

- ▶ Climate change refers to long-term shifts in temperatures and weather patterns. These shifts may be natural, such as through variations in the solar cycle. (United nations,2022)
- ▶ Main causes – burning fossil fuels such as oil gas and coal. Deforestation and agriculture.
- ▶ Climate change and the planet
- ▶ Implications for education

Conflict

(Ccpl.org, 2021)

- Violent conflict is one of the greatest development challenges facing the international community.
- Dakar framework for action 2000
- Conflict and education

Social injustice

(nationalable.org, 2019)

- What is Social injustice?
- Female injustices
- Refugees - Refugees are people who have fled war, violence, conflict or persecution and have crossed an international border to find safety in another country.
