Safety at work

8 tips to stay safe online

1 Be nice to people online.

2 Take care with what you share.

3 Keep personal information private.

4 Check your privacy settings.

5 Know how to report posts.

6 Keep your passwords safe.

7 Never meet anyone in person you've only met online.

8 If you see anything online that you don't like or you find upsetting, tell someone you trust.

Basic Digital Safety

Safety at Home

Child Safety Precautions To Be Followed At Home

	Install lockable doors to all cabinets containing toxic products.
	Teach pet safety and supervise child-pet interactions.
	Keep children away from electrical outlets, appliances, and switches.
	Keep small objects out of reach to avoid the risk of choking.
	Install staircase, window, and door blockers.
	Keep the crib bare of pillows and other loose beddings.
	Install door sleeves to prevent doors from locking on their own.
	Keep tools, firearms, and sharp objects out of reach.

Safety in Public

PUBLIC SAFETY

Make your safety a priority. Here are some public safety tips from Leelou that can help you reduce the risk to yourself.

- 1 ALWAYS BE ALERT AND AWARE OF THE PEOPLE AROUND YOU.**
The purpose of being vigilant is to train your eyes, mind and body to remain in a state of awareness that allows you to react to situations more quickly than you could from an unaware state.
- 2 STAY IN POPULATED, WELL-LIT AREAS.**
Be aware of locations and situations which would make you appear vulnerable to crime, such as alleys and dark parking lots. If you must walk alone, advise a friend of your estimated time of arrival/ return to and from location.
- 3 DISPLAY AN AWARE, CONFIDENT ATTITUDE**
Attackers case out their victims. Walk with your head up, and stay alert. Have direct eye contact with strangers approaching you. This eye contact does not need to be prolonged. Eliminate the possible element of surprise.
- 4 KEEP A SECURE GRIP ON YOUR PURSE OR BAG, AND CLOSE TO YOUR BODY.**
Do not allow it to dangle. Keep fasteners and zippers closed. However, if threatened by a demand for your purse, do not choose your purse over your personal safety and wellbeing.
- 5 BE AWARE OF SCAMS.**
Be cautious with strangers who ask for directions, or money. As innocent as these encounters may seem, these interactions may be an attempt to draw you near to be victimized.
- 6 DO NOT USE OR WEAR ANYTHING THAT WILL IMPEDE YOUR VISION OR HEARING**
Wearing sunglasses and earphones/headsets while walking can impede your vision and hearing that can lead to unpreparedness for an attack. If you hear the same footsteps behind you, don't be afraid to take a quick glance over your shoulder, and change your direction of travel.
- 7 ACCESS LEELOU APP**
If you feel uncertain, walk with AIA Mode activated. Press and Hold AIA Mode and if you feel a threat, release AIA Mode and it will alert your Guardians immediately. AIA Mode prevents the frantic need to look for your phone in an emergency.

BROUGHT TO YOU BY LEELOU

Conclusion

Digital Safety involves risk-free internet usage for virtual world involvement, mitigating online risks like malware, phishing, and botnets. User should safeguard personal data, browse safely, be online aware, use secure VPNs, and use strong passwords to prevent cybercrime and keep the internet and gadgets secure.
