A summary of Term 1

The first week of term

- >Team building activities
- >Introduced to are lecturers
- >Guided tours

Modules studied in term 1

>Academic writing

>CAD drawing

>Mathematics

>Project

>Science

Highlights of term 1

- >Gaining further knowledge in all the aspects of engineering I'm interested in.
- >Creating new friendships
- >Taking more pride in my work
- >Working in teams

Areas I want to improve on

- >Completing coursework on time in order to obtain my maximum marks
- >Conducting more extra work outside of the class room to gain further knowledge
- >Use all of the resources available to me

Reflections

There is a lot to reflect on the first term. I've thoroughly enjoyed the term and the work. Reflecting on the term there are areas I'm happy with such as making new friends and gaining further knowledge into my chosen area of engineering. However there are some areas I wish I approached differently. These area mainly consist of doing more work outside of the of the classroom and using a wider range of resources to further my studies.

Conclusion

Points of the PowerPoint

- >look at the first term as a whole
- >identify areas I want to improve on going into next term
- >look at the highlights from the term and discuss them
- >add a reflections section to round of the whole term

FINAL GRADE

16/20

GENERAL COMMENTS

Instructor

The title page should have your name on it.

Think about the size of your text and how best to use the space on your slide. Think about can you include images to a further interest.

I am pleased to see you have used presenter notes well and kept the information on your slides to a minimum. Though tl reflections slide does have to much text.

You do need to proof read your slides. On slide 2, you have 'are' instead of 'our'.

You have reflected on the first term well and considered areas that have been positive and negative.

In terms of the assessment criteria, I believe you fall in the 70-84% bracket, which says the following;

- Excellent evaluation of the underlying concepts and principles.
- Excellent ability to devise arguments using evidence and make appropriate and valid judgements.

Mark Awarded
16/20 = 80%
Overall Coursework Mark (including Parts A, B, C, D & E) = 62%
