Legislation

Care Act 2015 - Devised to improve the care and support received by an individual, supporting those in need of care and those who care for them (Gov.UK. 2014).

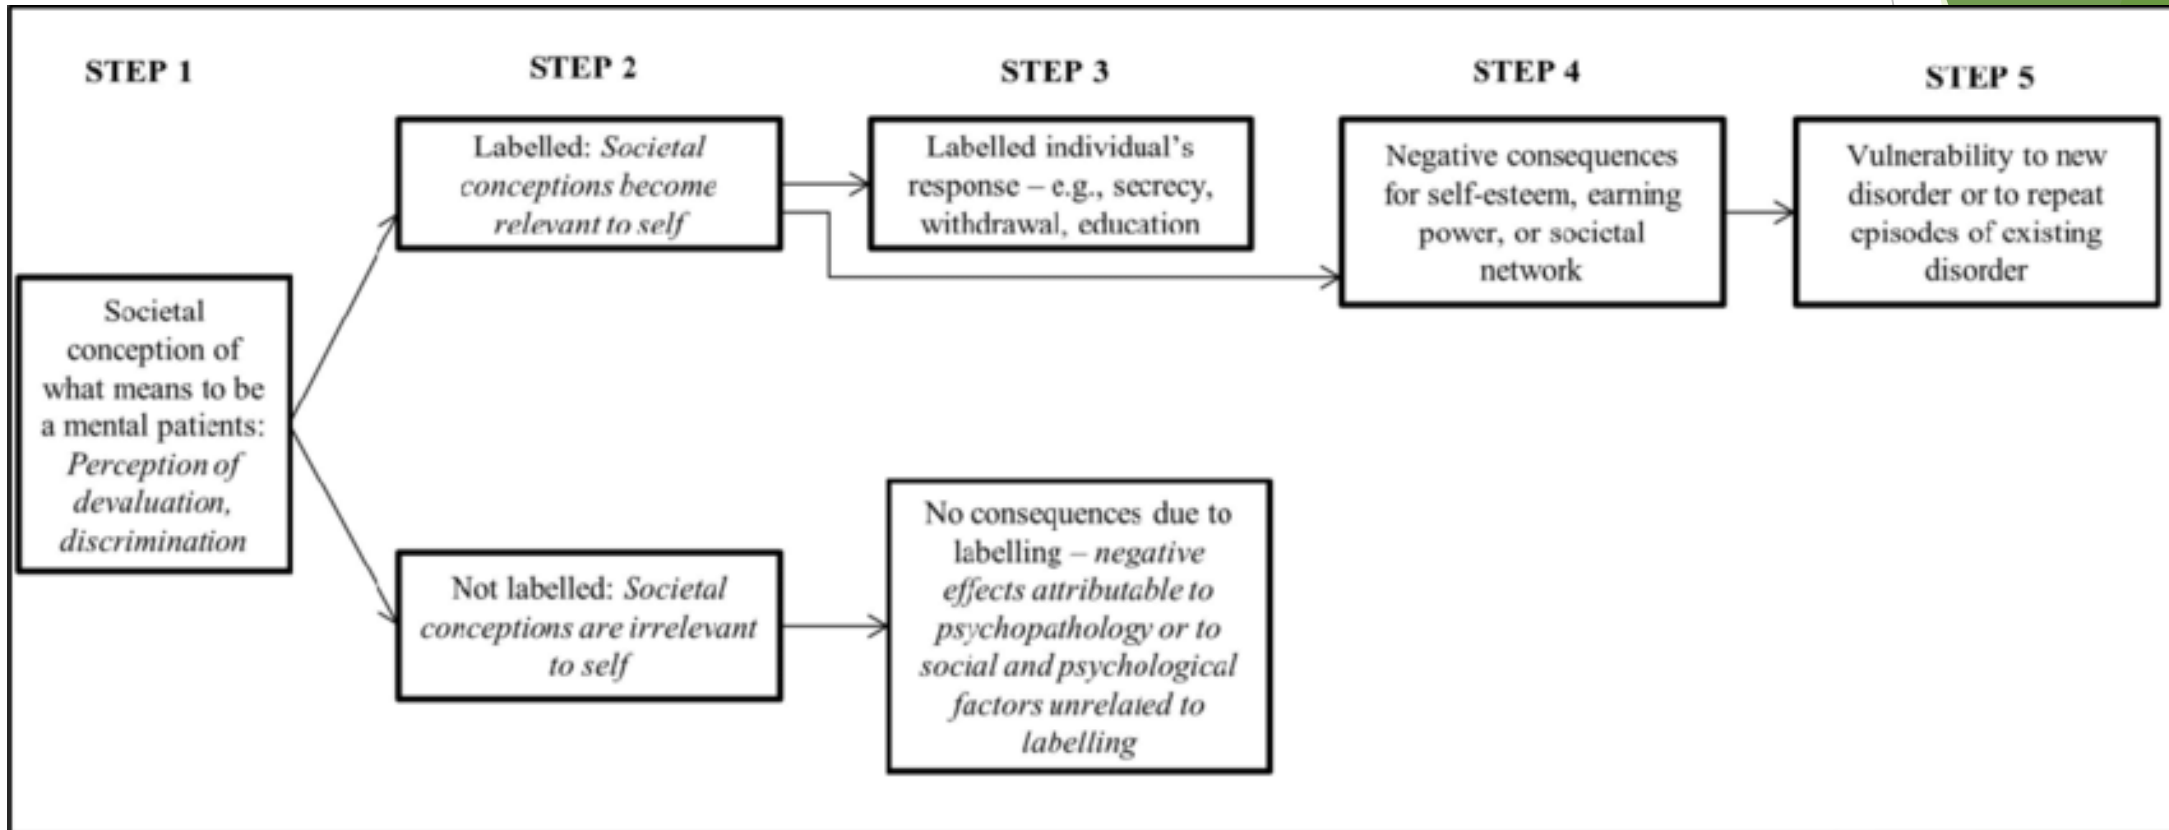

Mental Health Act 1983

This Act was designed to ensure that people with serious mental disorders can be treated without consent where necessary to ensure the safety of themselves and others. (Gov.UK. 2015).

Mental Capacity Act 2005 key principles:

- Supporting the right to make their own decisions unless it has been proved otherwise.
- Where lack of capacity is established, individuals should still be encouraged to be involved in decision making where possible.
- Individual values and beliefs need to be respected even if those choices are not in line with others.
- Decisions made on behalf of a person must be done in their best interest.
- Decisions made on behalf should always support the least restrictive according to their basic rights and freedoms (Gov.UK. 2005).

Modified Labelling Theory
