What is the
experience of
Counselling for
individuals with
Asperger Syndrome?

RECRUITMENT

PREVIOUS RESEARCH

Few research studies of
counselling related to
interventions with clients

No definitive study that
establishes the effectiveness of
counselling or the primacy of any
particular approach

RESEARCH PARADIGM AND METHODOLOGY

**Interviews or
Observations**

**Objective or
Subjective**

Advantages	Disadvantages
Puts the client at ease	Gives little access to internal process
Avoids making assumptions	Unable to direct the nature of material
Adopts a neutral view	Considered an interpretive act
Does not involve client ability	Being recorded could affect congruence

ETHICAL IMPLICATIONS

Avoiding harm

Confidentiality and Privacy

Respect for autonomy

Informed consent

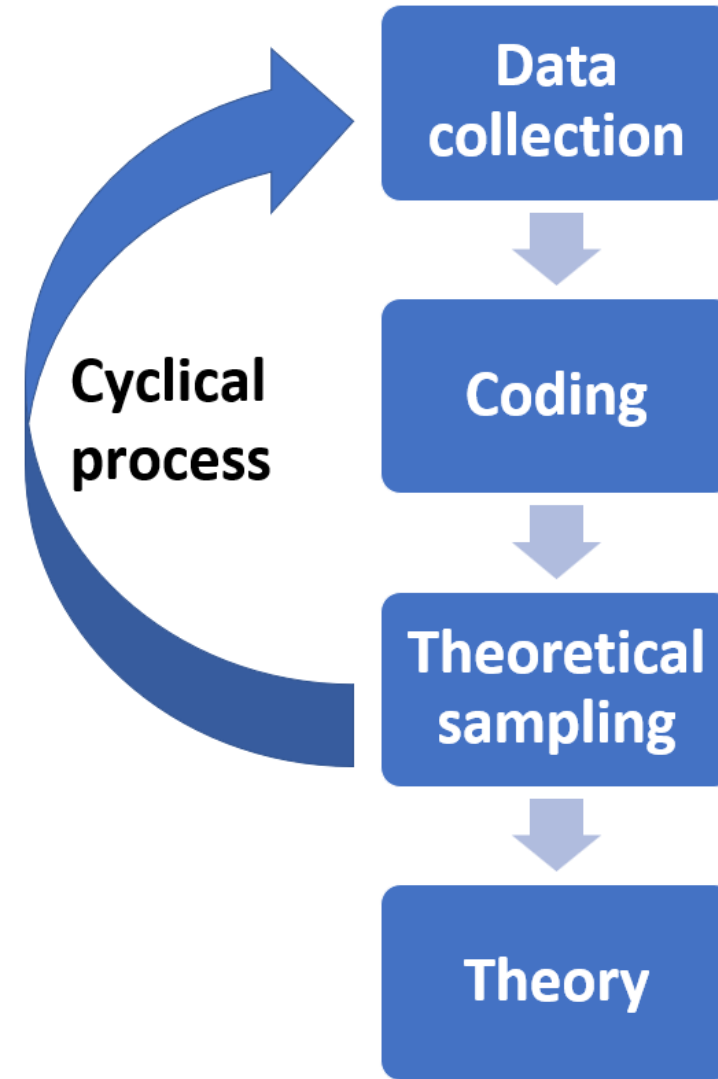

Politics and Power

TRANSCRIPTION

Pauses	Interruptions	Hesitations
Intonation	Volume	Pitch
Emphasis	Incomplete sentences	False starts
Crying	Laughter	Clearing of the throat
Audible intake of breath	Repetitions	And so on...
