

Name: Viorel Badale

Student Number: 1909486

Module: Community Engagement

Lecturer's Name: Tanja Nathan

Assignment : Reflective Evaluation

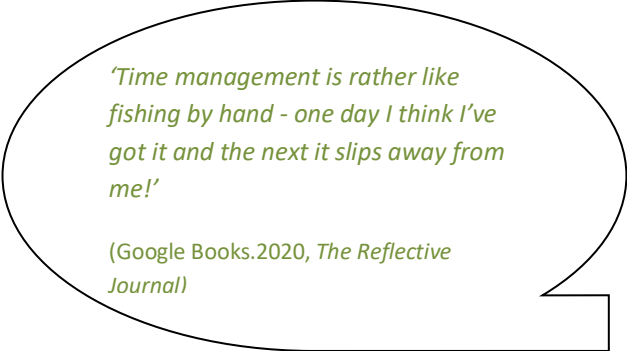

Date: 06/01/2020

First time when I have heard about reflective thinking, critical thinking, reflective journal, I thought, this is too much for me, I will never be able to create an essay about this things, I was more like a 'jump right in' person, but what I have discovered, was that there is a technique that helps you to develop a reflective thinking, but you need to do a lot of research in order to understand from where to start.

You can't jump right in to reflective thinking, maybe there are some people that they can understand how reflective thinking or writing works, but was not my case.

What I have discovered, is that we use reflective thinking or writing on daily basis, for example, when we do the shopping list for food, you not just write down 'some food', you think what we have eat in the last few days, do we want to change the menu, is there anybody coming for the weekend, maybe i need to buy some burgers for barbecue, if so, how many people are coming ? (Google Books.2020, *Reflective Writing*)

On my first essay, I have found that was very difficult to collect data about an organisation that I suppose to make an analysis. What was good, once I have start to do step by step research, ideas was coming to me and I become more and more confident that I'm going to be able to finish that essay. What was bad, I have discovered that I need to organise myself, because in this fast forward life that we are living, in order to complete our daily tasks, we need to use time management (Google Books.2020 *The Reflective Journal*).

'Time management is rather like fishing by hand - one day I think I've got it and the next it slips away from me!'

(Google Books.2020, *The Reflective Journal*)

Role play for me, was a big challenge!

On the other hand, I have found that was a very good experience to improve my presentation skills, I have discovered what was good and bad, I understand that I need to review my role play over and over before the presentation, to make it shorter, clear, and easy to understand for the auditors.

In conclusion, when you prepare a role play presentation, you need to use all the necessary tools like, reflective thinking, critical thinking etc, and when is done, start practice in the mirror until you are confident, and make shure that your presentation is short enough not to bored the audience.

LCBB 4002 Community Engagement

Peer Evaluation Role Play Feedback Form

Name of Presenter *VIOREL BADALE*

Date *11.12.2019*

Activity: *FIELD ENGINEER*

	Poor	OK	Good	Excellent
Introduction (Explanation)			✓	✓
Presentation (practical demonstration)			✓	
Conclusion (how well can you carry out the activity?)			✓	

Any other comments

*Impressive introduction, good solving skills,
FEW REPETITIVE PHRASES,
GOOD ATTITUDE,
LOST HIS IDEA FOR A SECOND BUT HE
MANAGED WELL EVERYTHING*
