

Sitting CPQ Exams using TestReach

Candidate Guide

Version 1.5 October 2023

What happens once I have booked my exam?

Once you have booked your exam you will receive an automated email confirmation of your exam booking. This will include a link to the exam regulations. You should read these before your exam takes place.

You will have up to 14 days to cancel your exam once the exam deadline has passed.

Approximately 4 weeks before your exam date you will receive two further emails. These emails will be from TestReach. You might need to check your junk mail if these do not come through to you.

Email 1 → Account set up

Email 2 → Password for the exam booked

Logging into TestReach & booking your exact start time

Once you have received your emails from TestReach you must login using the account details you have been given and **book your remote invigilation slot**.

This is the exact time your exam will start. **If you miss this step, you will not be able to sit your exam.**

Do **not** leave this step any later than 5 working days before your exam date.

Online exams – equipment check

Your laptop/PC must meet the following requirements:

- **Laptop / computer with 4GB of available memory.** (Chrome books, ipads/tablets or surface pro are **NOT** permitted as the app will not work on these). **Touchscreen and gaming devices**, while passing the system check, may cause connectivity issues when loading the exam due to graphic card or other incompatibilities. Therefore, **we do not recommend** using these devices to take your exam as you may not be able to connect to your supervisor and may encounter other technical issues.
- **A Windows v7.0+ or Mac10.10+ operating systems. MacOS BigSur users need to upgrade to 11.3+**
- **Intel Core i3 (or equivalent)**
- **A working webcam that can be used to scan the room, microphone and speakers**
- **Internet connectivity with continuous internet speed of a minimum of 2 Mbps**
- **Recommended screen size of at least 13" and a resolution of 1024 x 768.**

Using work devices means that **certain VPN's or Firewalls can block the app**. Please disable these or obtain permissions from your work IT department where possible. It is recommended to use a personal laptop/desktop.

You may use a second keyboard and separate computer mouse.

You are **not** permitted to have a second monitor on your workstation or within reach.

The TestReach assessment system is an online system, and the success of your exam will be dependent on you having continuous internet access. If your WIFI connection is not strong, you may consider using an ethernet cable to connect your device directly to your router.

Make sure you have completed the TestReach Test Tutorial. This is available once you have downloaded the TestReach application. You will have a link to this in your email from TestReach. If you are experiencing difficulties or you have not received your email from TestReach, you must email support@testreach.com.

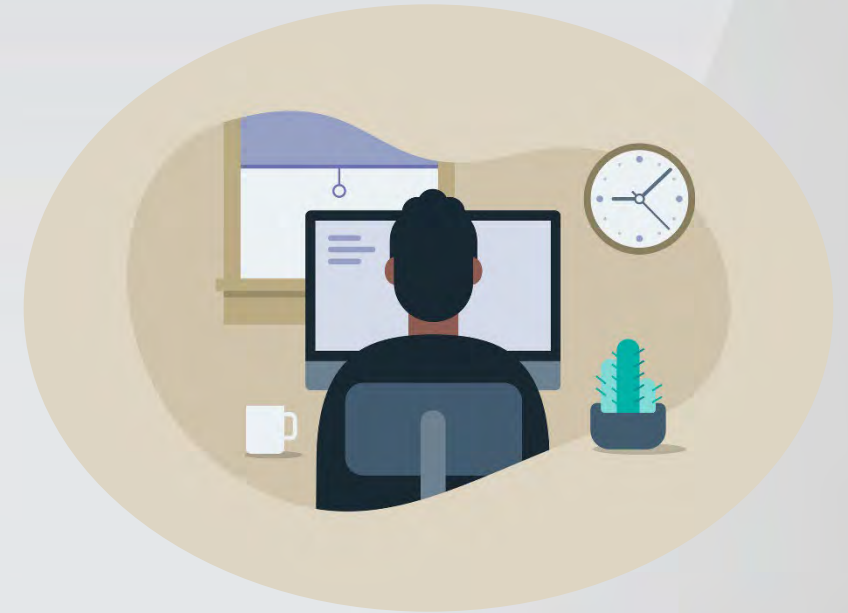

Where to sit your exam?

- Your remotely invigilated assessment may be taken at **ANY** location where there is a private, well-lit room, with the required internet connectivity.
- You must not be interrupted throughout your exam.
- **Your workstation should be free of all personal items, unauthorised materials and a second screen.**

You should also ensure that there are no unauthorised materials in your exam room, for example, revision notes, on the walls or other surfaces within reach.

- If you are using a room at your employer's premises or at a training providers facility, please ensure you have permission and will not be disturbed.

ID checks with your remote invigilator

15 minutes before your exam, system and ID checks will commence.

It is advisable to log in to your exam 20-30 minutes before your exam start time, which you have booked with TestReach.

You will be required to show signed Photo ID:

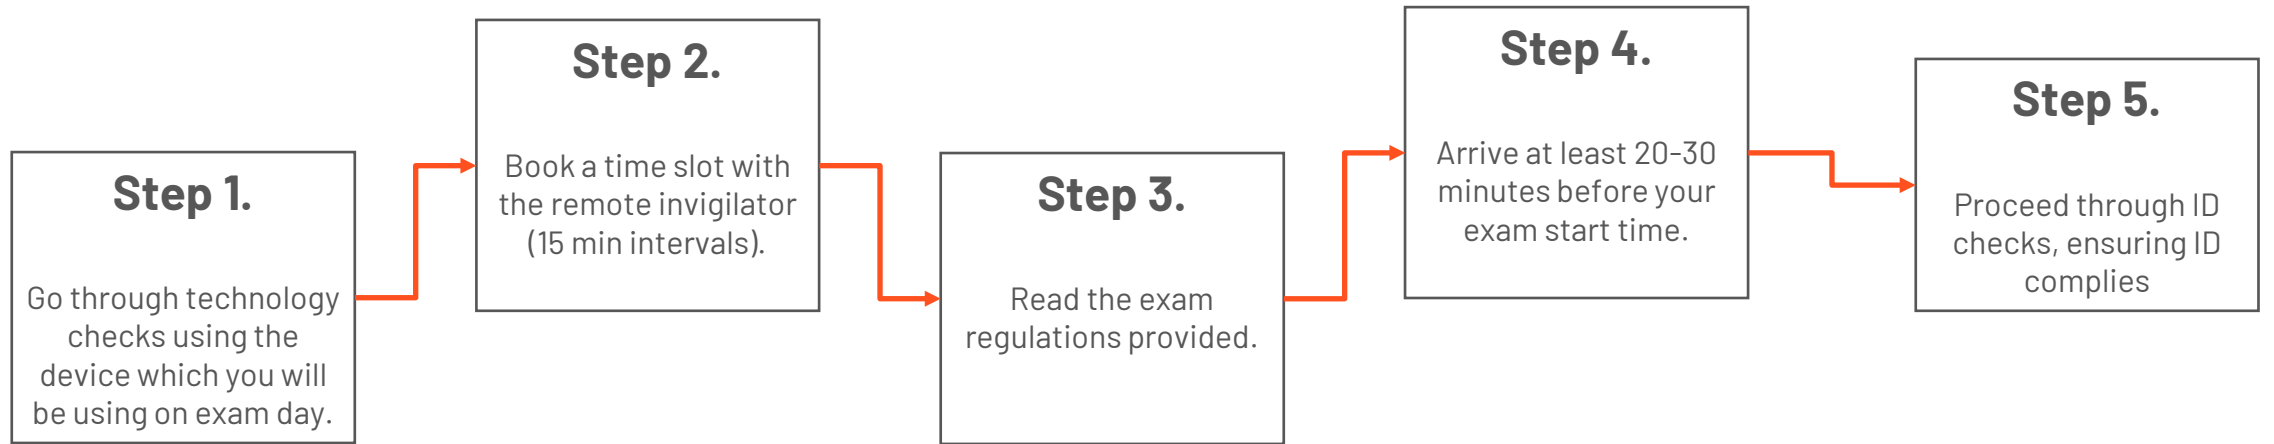

- Current Valid Passport (any nationality)
- Current Full or Provisional UK Photo Card Driving Licence
- UK Residence Card

If you do not present ID meeting the CILEX identity check requirements, will not be able to sit the exam.

Your remote invigilator will check your test environment and then guide you through the exam start.

To recap

How remote invigilation works

During the exam, your invigilator will be able to:

- see you via webcam and see your screen;
- use a chat box to communicate with you;
- hear you and talk with you when required.

If the invigilator notices any issues, they will send you an instant message or talk to you, asking you to refrain from the behaviour.

A toilet break is permitted but the clock will **NOT** be stopped. You **MUST** inform your Invigilator before you leave the room.

Dealing with issues

From time to time technology can throw up challenges for online assessment but the TestReach team will support you.

Poor internet connection

You may have your exam resumed up to a maximum of 3 times. After this, you will be asked to contact CILEX to rebook your exam.

Device issue

The TestReach Support team will spend up to a maximum of 15 minutes on a phone helping you to resolve issues local to your device i.e. webcam, sound card, graphics card. If your issue is unresolved you will be asked to contact CILEX to rebook your exam*.

Issues logging in to the TestReach app

Call the TestReach customer support line within 30 mins of your exam start time, the customer support team will help you to resolve the issue. If they are unable to, you will be asked to contact CILEX to rebook your exam.

TestReach server issue

In the very unlikely event that the TestReach service has a major or critical incident, you should go to <https://status.testreach.com>. This website will keep you up to date on any actions you should take and when TestReach expect the service to resume.

*You will be required to pay a fee to rebook your exam at a future session.

CILEX will consider requests to rebook an exam at a future session for no extra fee, in accordance with the requirements set out in the Special Consideration Policy and Special Consideration Procedure, only if there is evidence that you completed the system check prior to the exam or if the issues experienced were caused by a major or critical incident.

The main content area is titled 'Question Section A' and '1', with a 'Maximum Score: 1' indicator. A 'Copy Question Stimulus' button is on the left. The stimulus text reads: 'Idella and James have been tasked with going through boxes of archived documents to find information needed for the next day. The information is likely to take some time to find and James has made plans to meet friends that evening, complaining bitterly to Idella about the unfairness of having to stay late.' Below this, the question asks: 'What approach would be best for Idella?'. Four multiple-choice options are listed: 'Agree a plan of action to focus the search, starting with the most likely boxes, and share the workload', 'Offer to cover for her colleague and stay behind, possibly late into the night, to find the information', 'Agree a cut off time when they will both leave and update their line manager about their efforts in the morning', and 'Ignore her colleague and methodically start searching through all the boxes, hoping her colleague will eventually join in'. At the bottom of the question area are 'Review' and 'Stats' buttons. The Windows taskbar is visible at the very bottom.
