

MARKING CRITERIA AND STUDENT FEEDBACK		
MODULE: BEng Dissertation		
ASSIGNMENT: Dissertation (Final Report)		
STUDENT: Tiegien Lillicrap		
DATE: 10/05/19		
This section details the assessment criteria. The extent to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.		
Common Assessment Criteria Applied	Marks available	Marks awarded
1. Research-informed Literature <i>Extent of research and/or own reading, selection of credible sources, application of appropriate referencing conventions.</i>		
70-79%: A comprehensive range of research informed literature embedded in the work. Excellent selection of relevant and credible sources. High-level referencing skills, consistently applied - good secondary research that has been embedded into your report and clearly has been used to drive your decisions. - You have compared your results to other published work well.	10	7.7
2. Knowledge and Understanding of Subject <i>Extent of knowledge and understanding of concepts and underlying principles associated with the discipline.</i>		
70-79%: Excellent knowledge and understanding of the main concepts and key theories. Clear awareness of challenges to established views and the limitations of the knowledge base.	10	7.3
3. Analysis <i>Analysis, evaluation and synthesis; logic, argument and judgement; analytical reflection; organisation of ideas and evidence</i>		
70-80%: Thoroughly logical work, supported by evaluated evidence. High quality analysis, developed independently or through effective collaboration. Ability to investigate contradictory information and identify reasons for contradictions. Strong, persuasive, conclusions, justifiable recommendations - You have demonstrated a good understanding of statistical analysis when post processing your results	35	25.9
4. Practical Application and Deployment <i>Deployment of methods, materials, tools and techniques; application of concepts; formulation of innovative and creative solutions to solve problems.</i>		
60-69%: A very good application of a range of methods, materials, tools and/or techniques. Very good consideration of the context of the application, with perceptive use of examples, where relevant. Evidence of some innovation and creativity. Good contextualisation - You have tied together the two 'halves' of your project very well. Despite the challenges that you have had with respect to the equipment, you have managed to draw some good conclusions. Well done.	35	23.8
5. Skills for Professional Practice <i>Attributes in professional practice: individual and collaborative working; deployment of appropriate media; presentation and organisation.</i>		
70-79%: Can communicate professionally and, confidently in a suitable format. Can work professionally within a team, showing leadership skills as appropriate, managing conflict and meeting obligations. Work is coherent, very fluent and is presented professionally. - proof read your work. Your final timescale appears to be missing. - Some of your language is quite informal - for example "march 5th, 1981, a date any composite specialist within motorsport will have imprinted in their minds" - generally your report is well written with a good narrative explaining what you are doing and why.	10	7.5
