

1

## Aims

- This module aims to provide students with the opportunity to develop projects and/or other work-based learning activities that are **designed to improve or inform areas of their own interest** in relation to the field of mental health.
- The learning will be located within an identified work or practice area. The themes of projects, inquiries and/or other work-based activities are negotiated and can be related to individual interests, professional or healthcare team practice development and/or wider organisational development aims.

2

3

## Learning Outcomes

---

- Apply the learning gained to explore and critically discuss an agreed area of their work practice/experience;
- Make an appropriate contribution to the working environment within appropriate professional and ethical frameworks;
- Critically reflect upon their self-development and application of their professional knowledge and skills;
- Demonstrate a strong set of transferable and interpersonal skills relevant to the field of mental health.

## Your Task

---

Find a suitable placement...
