Screenshot/Photo 6

Using DeepL / Google Translate

My digital skill: Language translation & vocabulary expansion

Example: I use online translators to understand complex English texts and improve my vocabulary for my studies.

My Short Reflection

- I use digital tools to make my life more comfortable and easy.
- I feel confident when I search for information on the Internet or use social media.
- I want to improve my skills in using Artificial Intelligence and creating better prompts, as it helps us in our everyday tasks.
- I often use these tools: my phone, laptop, Google Calendar, web browser, and social media.
- I sometimes feel nervous about how quickly technology is advancing.
- I hope this module will help me understand my strengths and weaknesses in the digital field and become more confident in my study workflow.
- Digital skills are important for me because they help us in our daily lives, and they are also essential for learning.
