

Programme: BSc (Hons) Health and Social Care

Module name: Protecting and Supporting Families in
Health and Care

Module Code: (BMHP5021_LON)

Assignment Title: Component 1

Suggested Outline

Planning:

1. Construct a draft agenda for your multi-agency meeting. Consider the elements the meeting should cover to demonstrate the assessment criteria e.g.
 - *demonstrate knowledge and understanding of factors influencing the experiences of children young people and families, including process of assessment of children's needs and interventions carried out by the relevant health and social care agencies within the case study examined.*
 - *identify and analyse problems/issues and propose possible recommendations for improvements required, which are appropriate to improve the multi and inter disciplinary nature of health and social care services.*
2. Consider electing a Chairperson, to keep your meeting on track (1 hour for four participants, see example of an agenda).
3. Become familiar with learning discussed in your case study; any 'Key Themes', 'Learning Points', 'Actions to Embed learning', 'Learning and Implications for Practice' and 'Recommendations'.
4. Research your chosen field in the case study e.g. good practice demonstrated, possible missed opportunities, examples of poor practice. Consider as a group the recommendations the Child Safeguarding Practice Review (case study) has made. Do you agree?

Agenda example:

1. Introduction of panel members and their role e.g. police, social worker

2. Very brief overview of case and purpose of the meeting
3. Key findings of the Child Safeguarding Practice Review:
 - Key findings of the Review
 - Learning points
 - Recommendations / Actions to improve practice in your field and how inter-agency collaboration can be improved to effect good outcomes for children and families

In each of the above bullet point areas, participants can talk to the role of their discipline in the case e.g. good practice, missed opportunities to support the family / child earlier etc.
