SWOT analysis

<u>Strength</u> * Problem Solving * Teamwork * Written communication	<u>Weakness</u> * Verbal communication * Technological skills
<u>Opportunities</u> * New skills and knowledge obtaining * Become a good editor * Good networking in the workplace	<u>Threats</u> * Any technological changes * Oral presentation

Source: Learner

SWOT analysis (contd...)

□ Apart from this, according to Martin, Stamper and Flowers (2020), as I have fewer grips over creative skills it may affect oral presentation too.

Time management tool for Academic and Employability Skills

- ❑ Time management tools such as;
- ❑ “note-taking software”, calendar, “time tracker,” and even specialised software and applications for time management (Sydorova *et al.*, 2021).

Source: Sydorova *et al.*, 2021.

Time management tool for Academic and Employability Skills

	Skill	Current ability	Target ability	Development opportunity	Criteria for success	Time frame	Evidence
1st priority	Any technological changes	Lack of interest in technologies and robotics	Maximise interest over technological use	Using applications in actions Understanding their importance and necessity	Successful use of machines and robotics	8 weeks	Appreciation from teammates and professors
2nd priority	Oral presentation	Lack of speaking confidence	Optimise public presentation tactics	Presenting class presentation and public speaking, mirror presentation	Successful presentation and public pitching	5 weeks	Appreciation from audience

Conclusion

Considering, academic and employability one must learn and acquire knowledge accordingly whereas for better understanding PDP plans have been outlined.
