Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	40
Feedback	Marks
In this section to do well, you need to do in-text referencing from credible, relevant and diverse academic and industry sources for Network Automation Frameworks, Tools, API Standards and Architecture, its security and compliance policies and various resources available. Where possible you will be expected to critically appraise and summarise the literature engaged and to apply appropriate referencing conventions. More efforts required. Academic credible literatures from peer reviewed journals not referred to the work. Most of the references were online sources. Lack of diversity of sources and materials used. Could have added summaries and critical appraisals on the literature.	17

Knowledge and Understanding Skills	30
Feedback	Mark
To score high marks you need to demonstrate systematic understanding of network automation frameworks, tools, standards, architecture and its importance. The strength of statements need to reflect clearly the underlying principles, and critical understanding of concepts with appropriate examples and adequate figures/ diagrams. Discussed about the dimensions of NP. Frameworks and Architectures addressed. However, the discussion needs more detailed statements that could reflect the understanding on frameworks, tools, API Standards and its importance etc. Discussion with adequate and appropriate examples could have added value.	18

Cognitive and Intellectual Skills	20
Feedback	Mark
To do well in this section you need to demonstrate cognitive and intellectual skills by critically analysing and evaluating Network Automation frameworks, tools, standards and architectures. There was also a need to address similar resources (where available, what is the cost, etc), with adequate arguments and judgements. Critical review on security, compliance policies and API security and privacy required. Need more discussion on similar resources available. The discussion was mainly framed on what it is pattern. More critical analysis and evaluation on Frameworks, tools, Standards, Architectures, Security policies, API privacy required.	10.6

Practical Application Skills	0
Feedback	Mark
Not Applicable	0

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
To score high you need to ensure that the document is of high quality and professionally done. There should be a good flow of ideas , with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. Marks for the structure of the document were also considered in this section. Formatting and numbering needs attention. Could have used tables/ figures to illustrate the differences and understanding of the concepts.	7.8
Overall Mark	53
