

Contemporary Challenges Slides (Bullet Points)

KathrineWilliams-Kirby (2204818)

Here are my PowerPoint slides for the group work assignment. I have done research.

Climate Change Research(Information)

• What Is Climate Change?

- Long term shifts in weather patterns
- Decrease in ice and snow
- Decrease in Glaciers[1]

Climate Change Causes

- Greenhouse gasses
- Carbon Dioxide(CO₂)
- Capture Heat
- Can cause a massive impact with the environment[2]

Glaciers[3]

Carbon Dioxide[4]

Effects of Climate Change?

- Rising Sea Levels
- High temperatures
- Affect Wildlife negatively
- Decrease oxygen(when cutting down trees)[5]

Solutions to Climate Change

- Cut down less trees
- Stop using types of fossil fuels(Coil, oil, gasses)
- Use more environmentally friendly energy(wind power, solar)
- Use more electric cars to stop car pollution[6]

Electric cars[7]

Solar Power[10]

Planting Trees[8]

Wind energy[9]

Climate Change Game Research

Papers please images[12]

Game Research

- Basing our assignment around a game(Papers please)[11]
- Choice based game
- Different endings depending on certain choices
- Target audience are young adults(Feel like they have most impact)
- Younger audience may not be as interested
