Comments:

- Research & Analysis- Some interesting artists were researched you seem to like figurative well “drawn “ painting that leave an element to the imagination. You have researched the media to a minimum and done some experiments.
- Development/Experimentation with Media- As I have mentioned above you have experimented with the media to an extent but there is no real indepth exploration or real excitement apparent in your work.
Artbook –Your art book is very nice and well made and you have been individual in your choice of cover doing strips of flower patterns which is interesting.
Crayons –Really like your idea using the pencils to illustrate the pencil section, this actually is a very clever concept and could have been one of the post card ideas.
Pastels –Evidence of, but no first hand referencing of fruit
Watercolour –Evident but sparse
Oil –yes
Acrylic -yes
Own Choice -Promarkers
Digital - Produced a wide range of final outcomes during the workshops that demonstrated a good understanding of Photoshop.
Print –Beetle print is the only one I can see, where is the etching?

3. Technical skill- it is not clear which media you have used for your finals. Your strongest creative flair is really in your sketch book you seem to like to design and layout your pages. I wonder if you are lacking confidence with your work we need to have a talk.
4. Subject Knowledge- no in-depth subject knowledge really apparent-this is where you have researched experimented with concepts composition and media and then done further research to perhaps further develop your ideas. There is no evidence of any referencing from life you have drawn a horse, butterflies and an octopus, where have you gone to draw them?? What good reference have you used?
5. Presentation & Communication-Your work needs in future to be presented in a folder. You also need to be proud of your work if you hand it in like this in the future it could get lost. However you have annotated your work so that it is easy to follow through.
6. Personal Learning & Development- Where is your self-evaluation sheet? There is some evidence of you understanding your strengths and weaknesses but this needs to be developed further so that you apply your discoveries about your abilities and push your work to a higher level. For example a strength in your work is design and pattern but you do not utilize this in your final designs. In some ways your sketch book images are stronger than your finals but you are unaware of this it seems.
7. Professional practice- You have done what is required but you definitely need to take your work to a higher level and do more work.

One thing in your favour here is that you have managed to cover all requirements but it is at a basic level, your sketch book work shows you have way more talent than you have shown, so I look forward to your next project where you demonstrate more confidence in your abilities.

COMMON ASSESSMENT AND MARKING CRITERIA

ASSESSMENT CRITERIA	OUTRIGHT FAIL	MARGINAL FAIL	SATISFACTORY	GOOD	VERY GOOD	EXCEPTIONAL	
	0-34%	35-39%	40-49%	50-59%	60-69%	70-79%	80-100%
1. Research & Analysis Systematic exploration and selection of sources; effective interpretation and evaluation of findings.	Limited or no material presented with limited or no evidence of critical enquiry.	Material presented indicates a basic degree of insight and is of limited relevance to the task.	Material presented is adequate and relevant demonstrating the application of standard research techniques.	Material presented shows a good range of sources, is well organised and interpreted in a manner relevant to the task.	Connections have been made between sources and qualitative judgements have been made in the interpretation of these findings.	Research is extensive, well documented and critically evaluated with new personal judgements made and applied.	Research and exploration is impressive both in extent and depth and the level of interpretation and critical insight is highly advanced.
2. Development Formulation of innovative and effective concepts through appropriate application of problem solving, creative experimentation and testing methods.	Limited or no engagement with the practical and creative processes of ideation.	Basic proposals have been made but limited in scope and lacking in considered and focused development processes.	Proposals are adequate and are delivered within a familiar and well established framework of methods.	Proposed concepts are formulated with a good degree of detail through the use of a variety of systematic and exploratory methods.	Concepts display innovative ideas within established territories, which are well resolved through sound practical and creative processes.	Proposals respond effectively to unfamiliar or new conceptual territories and expand perceptions of process and/or product.	Proposals both challenge and extend the conceptual territory and set new benchmarks for innovation and effectiveness within the field.
3. Technical Skill Effective utilisation of appropriate materials, tools and techniques and the level of skill demonstrated in their application to the realisation process.	Limited or no awareness and utilisation of tools and techniques are demonstrated.	Rudimentary processes may have been applied but without consideration and competence.	Skills demonstrated display adequate awareness and appropriate application of standard materials and methods.	Controlled application of a range of materials and methods with good standards of finishing evident.	Communication of intent is fully executed demonstrating diversity of process and effective technique.	Extensive and highly advanced technical skills in established processes demonstrating sensitivity and excellence in idea realisation.	Outstanding levels of technical skill in all aspects of the realisation process demonstrating the assimilation and development of cutting edge processes and techniques.
4. Subject Knowledge Understanding and application of concepts and underlying principles associated with the discipline and the specific context of study.	Unable to grasp or communicate key principles or knowledge.	Limited understanding and communication of key principles or knowledge.	Evidence of basic understanding of the relevant concepts and underlying principles.	Knowledge is accurate and effectively applied in relation to the specific context.	Knowledge is extensive and the understanding of the context exhibits awareness of the breadth and depth of established views.	Knowledge has been assimilated and individual and personal perspectives have been formulated and debated with effectiveness.	Discipline and context specific knowledge are substantive and a highly advanced synthesis of these elements creates new or expanded perspectives.
5. Presentation & Communication Clarity and effectiveness in the deployment of appropriate media to communicate a message relevant to specialist and non-specialist audiences.	Appropriate media for communication have not been identified or applied effectively.	Limited awareness of the audience and a lack of clarity and organisation are demonstrated.	Basic awareness of the audience and clarity of message is demonstrated in deployment of standard communication forms.	Selection and application of media and conventions show good understanding of the audience and context.	Communication media have been selected and deployed to maximise impact for the selected audience and context.	Individual stylistic approaches have been implemented to communicate to a diverse range of audiences in a highly compelling and effective way.	Presentation and communication methods employed are not only highly individual, compelling and effective but also combine media in an innovative way.
6. Personal Learning & Development Personal responsibility demonstrated in managing own learning through programme engagement, self-directed study and reflective practice.	Little or no responsibility taken for own learning demonstrated by poor attendance, engagement and reflection.	Inconsistency in programme engagement and poor awareness of personal learning and development needs.	Evidence of some reflective practice contributing to appropriate effort and engagement to further personal development.	Evidence of regular reflective practice and awareness of individual strengths and weaknesses demonstrable in core learning and self directed study.	Reflective practice and individual development is extended beyond core learning, is well managed and documented.	Full responsibility for own learning and development is evidenced in detail demonstrating critical appraisal of purpose, progress and future direction.	Outstanding level of engagement with all elements of the programme enhanced by the personal drive and passion to extend learning beyond established parameters and into new domains.
7. Professional Practice Demonstrates those attributes expected in professional practice including individual initiative, project management, collaborative working and inter-personal skills.	No demonstrable understanding of professional expectations and does not work effectively as an individual or with others.	Poor level of productivity as an individual or in a collaborative context, ineffective management and little understanding of professional life.	Demonstrates awareness of the relevant attributes for professional practice and delivers work to the minimum requirements as an individual and/or in collaboration.	Works to the relevant standards and meets most requirements as stipulated in both individual and team working scenarios.	Meets most or all of the relevant standards and in some areas exceeds the requirements as stipulated, taking control of some aspects of project management.	Often works above the relevant standards and exceeds the requirements as a team member, leader or individual in a variety of working scenarios	Always works well above the relevant standards and demonstrates outstanding individual and collaborative professional attributes in every working scenario encountered.
