Conclusion

After the presentation I have done and the analysis done to my actual skills, I have reached the conclusion that there are more abilities than the ones I knew and that I should work on some of them in order to be better every day.

My expectation for this great degree I have started is to have improved mainly the time management as it is the one, I consider the most important. I am working on it now and it is going to help me in my personal, professional and academic life.
