I. Connect and collaborate from anywhere with digital tools

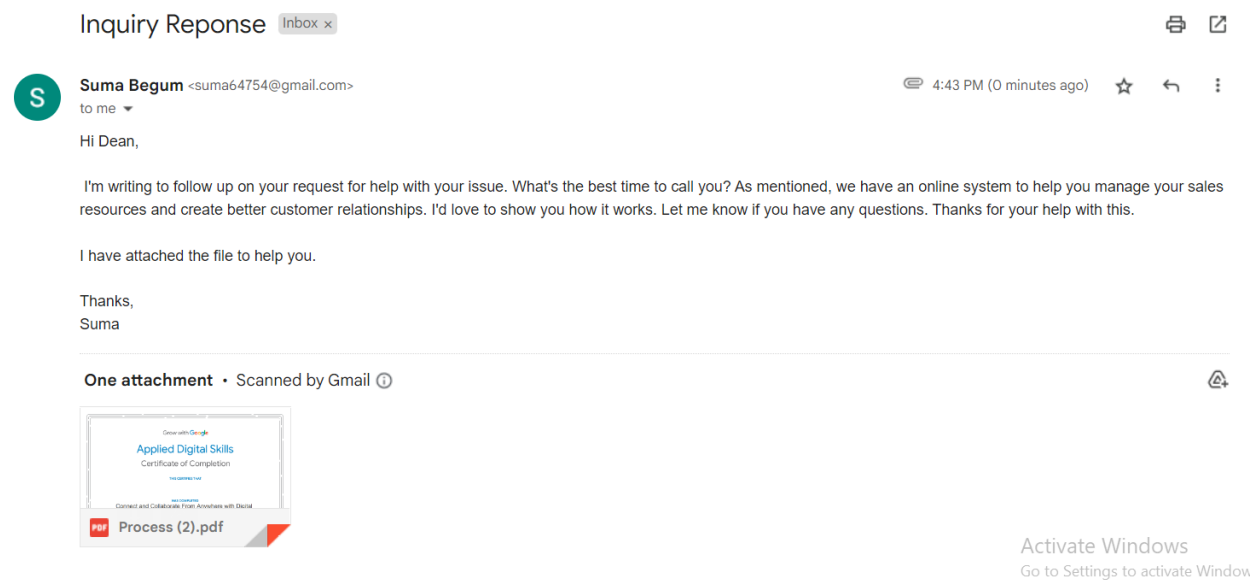

Here I have used google drive to communicate with others and asked one of my friends to share his ideas about online learning by giving him edit access.

III. Make a promotional flyer

IV. Communicating Using Email

I have sent an email responding to the inquiry and also attached a process (demo) to help the person.

V. Avoid Online Scams

The Story of Selling Shoes

Phone call and suspicions:

- How did the buyer get Kamar's phone number?
- Why do they need the sneakers for the next day?
- Confirmation about the payment and buyer needs to be made before shipping

Email and Transcript:

- Kamar should check his account for the confirmation of payment
- The lady seems suspicious as she has just sent a fake email
- Email which is just not fake but tried to make a replica of the original email

Should Kamar Ship the Shoes:

- Kamar should not ship his shoes

Additional Notes (How to Avoid Scams):

- Dealing outside the official site can be a sign of scam
- Imitations of official emails or logos is also a sign of scan
- Email addresses are not clearly from the official company
- Asking personal information on phone calls can be a sign of scam

VI. Create and Safeguards passwords
