Engagement with Literature Skills	15
Feedback	Marks
In this section for a student to do well, they needed to do in-text referencing from credible and relevant diversity of sources. Where possible one will be expected to critically appraise the literature engaged. Lastly one is expected to apply appropriate referencing conventions. In-text citation not done. Could have referred to academic credible literatures. This section was poorly done and NB academic credible literatures score high.	5.5

Knowledge and Understanding Skills	15
Feedback	Mark
To score high marks one needed to demonstrate systematic understanding and explain, analyse the vulnerabilities stated in the scenarios in a meaningful way with what, why, how, and when questions, justify arguments and make judgements. The strength of statements given, and critical understanding of concepts, quality of the work also contributes to the score on this section. Vulnerabilities discussed adequately. However, could have been better with appropriate Tables and figures documented with in-text citations. Evidences for the statements not documented.	9.1

Cognitive and Intellectual Skills	20
Feedback	Mark
To do well in this section one needed to demonstrate cognitive and intellectual skills by critically analysing and evaluating different terminologies, ideas and evidences used in this work. It also includes the proposed mitigation and guidelines given. Key observations made. Terminologies like encryption file formats, vulnerabilities discussed adequately. Mitigation and guidelines addressed. However, guidelines if presented in bullet points, and with more specific details could have added value.	13.55

Practical Application Skills	40
Feedback	Mark
For a student to excel they needed to provide evidence of the practical application skills developed (completing assigned courses), practical work done and a narrative text to accompany the screenshots. Completed all the courses. Topology could have been more professionally documented.	35.25

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
To score high a student needed to ensure that the document is of high quality and professionally done. There should be a good flow of ideas, with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. The flow of the report is ok. Could have added definitions, abbreviations for key words, chapter numbers etc. Abstract should be the first part in the report. The abstract should be a brief summary of your entire work, like what you have done in this coursework. Recommendation: Be a little bit descriptive. Your abstract should start with a couple of lines introducing your work and then the problem followed by the proposed solution and its outcome. Finally your conclusion. Use automated Table of contents	4
Overall Mark	67
