Unknown Song

(Song based around the season : Summer song)

Release Date: 23/07/21

Stephen Hawking

Release Date: 24/09/21

Season:

- ❑ Days getting darker and colder
- ❑ Going from outdoor summer to indoor, closed walls

Storyline:

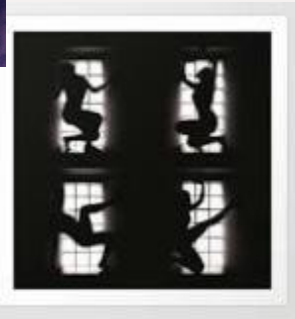

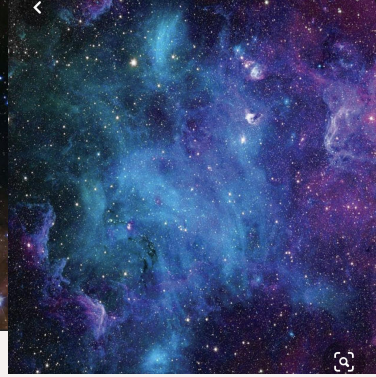

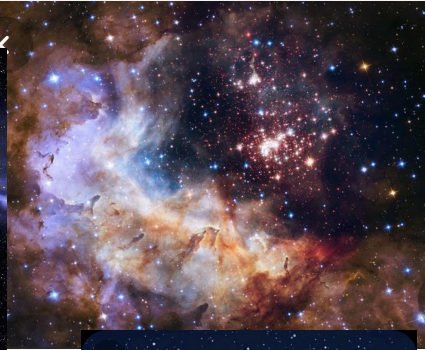

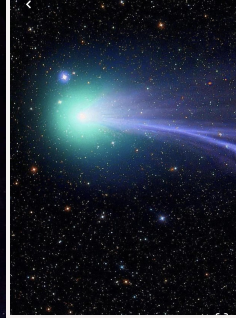

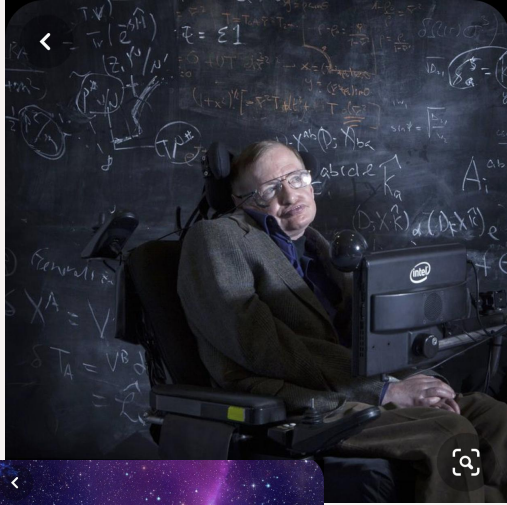

“ but on thing you can't call it is cramped. Where we look we see space, more space and ever more space”

Stephen Hawking:

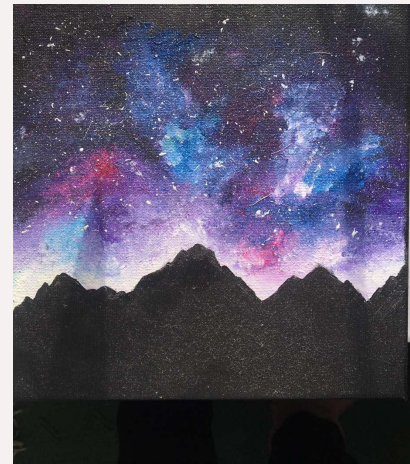

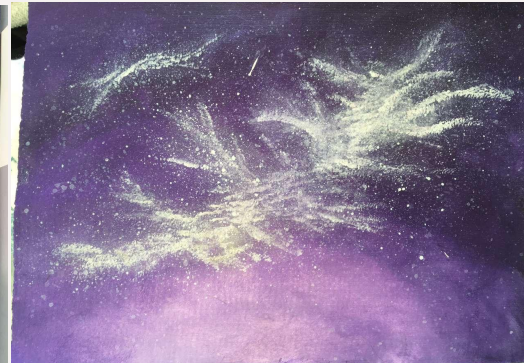

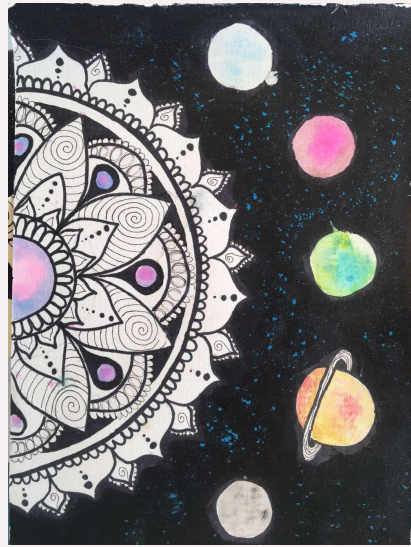

Philosophical idea, inspired by the Stephen Hawking book 'Brief Answers to the Big Question' that physically we have so much space in the world and yet we can feel so claustrophobic within ourselves, within the four walls of our home etc.

Also links to the idea of western culture constantly demanding more space for food, energy etc., and how we don't have the space, we are killing the planet yet technically we have the whole universe. We do not want to mess it up.

Stephen Hawking Moodboard:

Collaboration With: Artist Milly Wheeler

Merch:

- ❑ Tshirts
- ❑ Hoodies
- ❑ Stickers
- ❑ Badges
- ❑ Posters

- ❑ Refer a friend and get half price
