Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	40
Feedback	Marks
In this section to do well, you need to do in-text referencing from credible, relevant and diverse academic and industry sources for Network Automation Frameworks, Tools, API Standards and Architecture, its security and compliance policies and various resources available. Where possible you will be expected to critically appraise and summarise the literature engaged and to apply appropriate referencing conventions. More work required. More adequate/ appropriate in-text citation needed. Not adequate literatures referred to the work. Could have referred to more academic credible sources. This could have added more strength to the statements and value to discussions. Citing a context from a literature alone is not engaging with literatures. Each and every point discussed needs to be supported with adequate evidences from literatures referred. More critical appraisals on the literatures and summaries required.	16.2

Knowledge and Understanding Skills	30
Feedback	Mark
To score high marks you need to demonstrate systematic understanding of network automation frameworks, tools, standards, architecture and its importance. The strength of statements need to reflect clearly the underlying principles, and critical understanding of concepts with appropriate examples and adequate figures/ diagrams. Good work. The dimensions of NP, Architecture, Standards discussed well. Use of tables and appropriate figures to illustrate your understanding could have added value. Eg: the differences between REST/ SOAP etc.	23

Cognitive and Intellectual Skills	20
Feedback	Mark
To do well in this section you need to demonstrate cognitive and intellectual skills by critically analysing and evaluating Network Automation frameworks, tools, standards and architectures. There was also a need to address similar resources (where available, what is the cost, etc), with adequate arguments and judgements. Critical review on security, compliance policies and API security and privacy required. More efforts required. More critical analysis on Framework, Standards and Architecture could have added value. More in-depth discussion on similar resources required. Similar resources are not academic courses and youtube resources. Need to discuss about other resources from similar to cisco like Microsoft, etc.	13.3

Practical Application Skills	0
Feedback	Mark
Not Applicable	0

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
To score high you need to ensure that the document is of high quality and professionally done. There should be a good flow of ideas , with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. Marks for the structure of the document were also considered in this section. The flow of the report is ok. Could have formatted well.	7
Overall Mark	60
