

Moodle

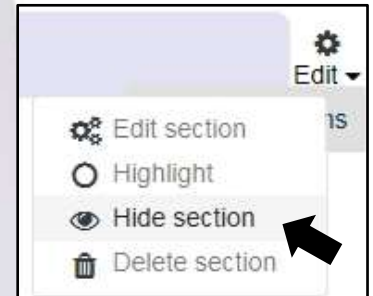

Show or Hide a Section or Module

Sections: A topic section can be used to hold any of the other Moodle activities or resources. They are visible by default but can be hidden until needed.

Step 1: On your Moodle page left click **Turn Edit On**

Step 2: On the right end of each section, select/click the gear cog icon  to access the drop down menu. Then click the eye icon  to Hide or Show a section.

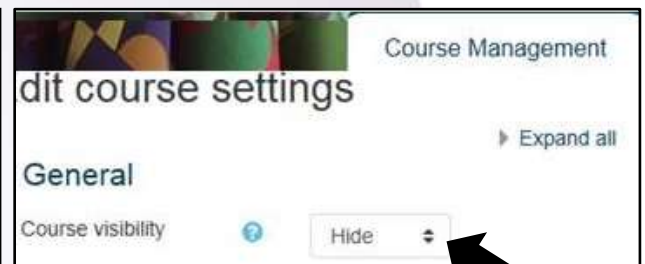

Step 3: On your Moodle page left click **Turn Edit Off**

Show Module: New modules are hidden from students until editing teachers make them visible.

Step 1: The module is hidden from students until you make it visible. Click the **Course management** tab at the top of the module page, click **Course Settings**, then select **Show** instead of Hide in the *course visibility* box.

Step 2: Finally click **Save and Display** to finish.
