SAMPLE PARTICIPANT INFORMATION SHEET

TEITL Y PROSIECT: / PROJECT TITLE: To Compare and Contrast the participation rates in football between Wales and Washington D.C

***THIS FORM IS TO BE AMENDED AND ADAPTED AS NECESSARY**

Dear Participant;

My name is William Ingles and I am studying in the School of University of Wales Trinity Saint David.

I would like to invite you to participate in my research project. This project will help give myself a better understanding of why people participate in football and aims to find out what their reasons are for playing football.

*Attached to this letter is a short questionnaire developed by myself which will help give a better understanding to of a person's reason to taking part in football is, for example physical benefits. I believe your opinions will be extremely helpful to me.

Through your participation in the questionnaire and/or interviews, I hope to use your information to help give myself a better understanding of this research project and to help progress with my research.

All questionnaires will be kept strictly confidential to the researchers involved and at **NO** time will individual questionnaires be released to the general public. This gives you a chance to express your views on your programme a confidential and anonymous forum and still be able to make a

difference. Your participation in this study is completely voluntary so you can withdraw from the questionnaire at any stage.

Our questionnaire should take about 5 minutes to complete, but there is no time constraint. There are also no right or wrong answers. Attached to this letter along with the questionnaire is a few example questions of what you will need to answer in the real questionnaire. (e.g. an instruction sheet / a consent form / a feedback sheet). As this is a new project, your feedback is also important to us and we would be much obliged if you could also complete the feedback sheet along with the questionnaire. We understand that your time is at a premium but your opinions are very valuable to us.

After careful and precise analysis of the data obtained from this questionnaire, I will be happy to provide you with a copy of the findings at your request. The results of this questionnaire will hopefully enhance my understanding of the reason to why people participate in sport and will be stored on my laptop. The results of the research will be fed back to myself so I can then use this research in my final piece of work.

We thank you in advance for your time and participation. If any questions do arise, feel free to contact me at your convenience.
