Comments:

A bit more detail on existing systems needed, although the screenshots were good - eg how does it work over time? graphs etc. Table of comparison of features to summarise?

Good use of survey to inform requirements

Think about CoreData vs Cloud Storage - advantages+disadvantages
lots of detail on survey which is a good feature at this stage, not enough on methodology.

Wkd cloud to present Q&A?

Slides are a bit hard to read at times, used a light background / dark text.

Plan good in general, need to break down the development into tasks and some dates slightly wrong!
